FEDERAL GOVERNMENT EMPLOYMENT

January, 1960

INTRODUCTION

A complete description of the method of collection and the statistics included in this series was given in the report for April, 1959.

Total staff strength declined by 2,782 in January 1960 as compared with December 1959. Earnings of staff decreased by \$1,905,000 from December 1959. Employment was down by 4,117 from comparable totals for January, 1959 but earnings of staff rose by \$2,085,000. The main changes recorded in January 1960 as compared with December 1959 were a) a decrease of 166 employees and \$230,000 in Departments, b) a decrease of 221 employees and \$55,000 in Agency Corporations and (c) a decrease of 2,428 staff and \$1,675,000 in Proprietary Corporations.

FEDERAL GOVERNMENT EMPLOYMENT

January, 1960

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES

The number of employees in Agency and Proprietary Corporations decreased by 2,666 in January, 1960 as compared with December, 1959. Earnings of these employees decreased by \$1,723,000 from December 1959. The principal changes recorded in January 1960 from December 1959 were a) seasonal decreases by the Canadian National Railways and the National Harbours Board and b) an increase of staff by the Trans-Canada Air Lines.

Using comparable figures there were 616 fewer employees in January, 1960 than in January, 1959 but the earnings of employees were up by \$1,749,000 in the same period. In comparing employees and earnings with those for the previous year or in using cumulative figures, employment data of staff located abroad (outside Canada) should be deducted for the months of November 1959 to January 1960. This is due to the fact that data pertaining to those employees were not included prior to November, 1959. At the end of January 1960, 8,942 employees of Agency and Proprietary Corporations were working outside Canada. These employees had earnings of \$4,427,000 during January 1960 and \$13,315,000 during November 1959 to January 1960.

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS

Earnings of Christmas helpers in the Post Office Department are recorded as footnotes in this report.

The opening of the Third Session of the 24th Parliament in January 1960 resulted in a one month increase over December of more than 400 employees in the function "General Government - Legislative". Casual employees declined in the functions "Transportation and Communications - Waterways" and "Education - Indian and Eskimo Schools etc." but rose in the function "Other - Post Office".

Total employees in Departmental Branches, Services and Corporations declined by 3,501 in January 1960 as compared with January 1959. Salaried employment rose by 1,753 during the 12 month period and the main changes were increases of over 3,100 employees in the functions "General Government - Executive and Administrative", "Protection of Persons and Property - Police Protection", "Transportation and Communications - Airways", "Social Welfare - National Employment Services", "Other - Post Office" and decreases of over 2,000 employees in the functions "Defence Services" and "Transportation and Communications - Waterways". During the same period prevailing rate employees decreased by almost 2,000 mostly in the function "Recreational and Cultural Services - Parks etc." In the one year period casual employees fell by over 3,400. The principal changes were decreases in the functions "Defence Services" and "Transportation and Communications - Waterways". No significant changes occurred in Ships' Officers and Crews employment. A change-over of responsibility for the operation of Canals on the Seaway System, from the department of Transport to the St. Lawrence Seaway Authority in April 1959, contributed to decreases in the function "Transportation and Communications - Waterways" of 711 salaried, 266 prevailing rate and 458 casual employees. Prevailing rate employees were more numerous last year in the function "Recreational and Cultural Services - Parks etc." due to a winter works program conducted by the National Parks Branch of the Northern Affairs and National Resources at that time.

FEDERAL GOVERNMENT EMPLOYMENT

February, 1960

INTRODUCTION

A complete description of the method of collection and the statistics included in this series was given in the report for April, 1959.

Total staff strength declined slightly in February, 1960 as compared with January, 1960 while employees earnings rose by \$334,000. Employment was down by 3,155 from comparable totals for February, 1959 but earnings of staff rose by \$1,908,000. The main changes recorded in February, 1960 as compared with January, 1960 were a) an increase of 238 employees and \$1,090,000 in Departments, b) a decrease of 594 employees and \$53,000 in Departmental Corporations and c) an increase of 185 employees and a decrease of \$701,000 in Proprietary Corporations.

FEDERAL GOVERNMENT EMPLOYMENT

February, 1960

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES

Total number of employees in Agency and Proprietary Corporations and Other Agencies increased slightly in February as compared with January. Earnings of these employees decreased by \$703,000 from January. An increase of staff by the Trans-Canada Air Lines and a decrease by the Canadian National Railways were the main reasons for the changes in staff recorded during February 1960.

To make possible a comparison with data for the previous year, figures excluding staff located abroad (outside Canada) are shown in footnotes 2/, 3/ and 4/. This has been necessitated because data pertaining to the staff abroad were not included prior to November, 1959.

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS

Payments for overtime worked by salaried employees of the Post Office department at Christmas 1959 are included in Table 9 of this report. February, 1960 was the last month in which staff was reported by the Royal Commission on Energy Policies. This employment had been included departmentally under "Privy Council - Special".

Salaried employees increased mainly in the function "General Government - Executive and Administrative" due to the regular annual increase of staff in the Taxation Branch of National Revenue to handle income tax returns. Casual employees decreased mostly in the functions "Transportation and Communications - Waterways" and "Social Welfare - National Employment Services" but rose in the function "Defence Services". The departments of Labour, National Defence, Public Works and Transport were responsible for the changes in casual employment which were principally seasonal in nature.

FEDERAL GOVERNMENT EMPLOYMENT

March, 1960

INTRODUCTION

A complete description of the method of collection and the statistics included in this series was given in the report for April, 1959. Some data pertaining to the department of National Defence for March, 1960 were not received in time for inclusion in this report. In order to give a fairly complete picture of total employment, February employment and earnings figures were used for salaried staff of the Defence Research Board and for prevailing rate, ships' officers and crews and casuals staff in all Branches of National Defence. February data were also used for retroactive and overtime payments to all staff of the department. A study of data for the previous year indicates that salaried, prevailing rate and ships' officers and crew employees and earnings are unlikely to vary to any significant extent. Casual employment and earnings on the other hand may vary quite extensively.

Total staff strength of the Federal Government including all its corporations and agencies declined by 78 in March, 1960 as compared with February, and by 3,446 from comparable totals for March, 1959. Earnings of these employees decreased by \$713,000 from February, 1960 and \$634,000 from equivalent March, 1959 totals. The main changes recorded in March, 1960 as compared with February, were a) a decrease of \$1,691,000 in earnings of employees in Departments and b) an increase of \$1,013,000 in earnings of employees in Proprietary Corporations.

Comparable figures show that total earnings of all Federal Government employees amounted to \$1,334,459,000 during the fiscal year ending March 31, 1960 and \$1,284,778,000 during the year ending March, 1959 a year-to-year increase of \$49,681,000 or 3.8 p.c.

^{3/} In comparing employees and earnings with those for the previous year the following figures should be used: number of employees - 326,436; earnings - \$107,595,000.

^{4/} In comparing earnings with those for the equivalent period of the previous year cumulative earnings of \$324,155,000 should be used.

^{5/} In comparing earnings with those for the equivalent period of the previous year cumulative earnings of \$1,334,459,000 should be used.

FEDERAL GOVERNMENT EMPLOYMENT

March, 1960

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES

The total number of employees in Agency and Proprietary Corporations and Other Agencies decreased only slightly in March as compared with February. Earnings of these employees increased by \$991,000 from February. This is considered to be due to the fact that there were two more working days in March than in February.

To make possible a comparison with data for the previous year, figures excluding staff located abroad (outside Canada) are shown in footnotes 2/, 3/ and 4/. This has been necessitated because data pertaining to the staff abroad were not included prior to November, 1959.

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS

The Royal Commission on Price Spreads of Food Products made its final report this month. This employment had been included departmentally under "Privy Council - Special".

Changes in employment during March were few with prevailing rate and ships' officers and crew employment virtually unchanged. Salaried employees increased in the function "General Government - Executive and Administrative" due to the regular annual increase of staff in the Taxation Branch of National Revenue to handle income tax returns. Casual employees decreased mainly in the functions "Transportation and Communications - Waterways" and "Natural Resources and Primary Industries - Lands: Settlement and Agriculture". The departments of Agriculture and Public Works were responsible for the above changes in casual employment.

The quarterly statement of hiring and separation data for salaried employees is included in table 9. It shows that a monthly average of 1,861 persons including 897 males and 964 females were hired in the January - March period while separations numbered an average 877 males and 628 females per month. Hiring rates per 1,000 employees were: men 8, women 23, total 12; while separation rates were: men 8, women 15, total 10.

Notes and Definitions

Department – For purposes of this table only, a department is defined as a departmental branch, service or corporation having a separately administered personnel office.

Hiring – The initial appointment of an individual to the reporting department.

Separation – Termination of service of an individual in the reporting department.

Average Employment – The mean monthly average number of employees in each department during the quarter.

Monthly Average – (Hirings and Separations) – The arithmetic mean i.e. one third of the actual hirings and separations for the quarter.

Monthly Rate per 1,000 Employees – (Hirings and Separations) – The rate is computed by the following formula:

$$\frac{\text{Monthly Average (number hired or separated)} \times 1000}{\text{Average Employment (during quarter)}}$$

January 1 to March 31, 1960

INTRODUCTION

An explanation of how the statistics for: (1) Agency and Proprietary Corporations and Other Agencies, and; (2) Departmental Branches, Services and Corporations are collected and maintained is given, together with other background detail, in Part C - "Explanatory Notes" commencing on page 23. Table 1 combines all employment reported in Parts A and B. Data on Agency and Proprietary Corporations and Other Agencies is presented by province in Part A. That for Departmental Branches, Services and Corporations is summarized in Part B. Reference to the table of contents on page 3 will indicate the detail available in each. A table on hirings and separations of salaried employees is included quarterly. The classification by function is explained in detail on pages 25 to 29. The administrative classification is based upon the departmental establishment which is presented in the official Estimates of Canada, thus permitting the analyst to follow the growth and changes in employment of each department. Comparative analysis must take into consideration changes in departmental organization which occur. This process of change is taken into account in the analysis by function.

Some data pertaining to the department of National Defence for April, 1960 were not received in time for inclusion in this report. In order to give approximate figures of total employment, March data were used for salaried staff of the Defence Research Board and for prevailing rate, ships' officers and crews and casual staff in the entire Department. March data were also used for retroactive and overtime payments to staff of the Department. A study of related data indicates that the number of salaried, prevailing rate and ships' officer and crew employees are unlikely to vary to any significant extent, while the number of casual employees may decrease slightly.

During April, 1960 total staff strength of the Federal Government including all its corporations and agencies declined by approximately 2,100 from March, 1960 and by almost 3,700 from comparable totals for April, 1959. Earnings of these employees increased by \$672,000 from March, 1960 and by \$2,133,000 from comparable totals for April, 1959. The number of employees decreased in Departments by 179 from March 1960 in Departmental Corporations by 99, in Proprietary Corporations by 2,170 and increased in Agency Corporations by 310 and in other Agencies by 4. Earnings of those employees increased in Departments by \$1,285,000, in Departmental Corporations by \$23,000, in Agency Corporations by \$255,000 and decreased in Proprietary Corporations by \$899,000 and in Other Agencies by \$2,000.

FEDERAL GOVERNMENT EMPLOYMENT

April, 1960

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES

The total number of employees in Agency and Proprietary Corporations and Other Agencies in April was 1,856 less than in March. Earnings of these employees decreased by \$636,000 from March. The decline occurred mainly in Prince Edward Island, Nova Scotia and New Brunswick. Decreases by Canadian Arsenals Ltd. and the Canadian National Railways more than offset increases by the National Harbours Board, the Northern Transportation Company Ltd. and Trans-Canada Airlines.

To make possible a comparison with data for the previous year, figures excluding staff located abroad (outside Canada) are shown in footnotes 2/ and 3/. This has been necessitated because data pertaining to the staff abroad were not included prior to November, 1959.

April, 1960

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS

A salary increase effective April 1, 1960 has been included in the earnings of salaried employees. It is estimated that some 43,000 employees had salary increases amounting to \$1,037,000.

The number of salaried employees decreased while the number of prevailing rate, ships' officer and crew and casual employees increased in April, 1960 as compared with March, 1960. The principal changes recorded in April from March were a) decreases of salaried staff in the functions "Defence Services", "General Government-Executive and Administrative" and "Transportation and Communications - Telephone, etc." and b) increases of prevailing rate employees in the functions "Recreational and Cultural Services - Parks, etc." and "Natural Resources and Primary Industries - Lands, etc."

Following is an outline of the principal changes included in the Estimates for the fiscal year April 1, 1960 to March 31, 1961. Changes within a service (services as outlined for each department in tables 8 and 9) are not detailed.

National Health and Welfare: "Civil Defence" now under "General".

Northern Affairs and National Resources: "National Parks Branch" includes a new service - "National Aviation Museum".

Privy Council: "Emergency Measures Organization" has been separated from "Special". The "Royal Commission on Coal" established under authority of an Order-In-Council dated October 6, 1959 has been included for the first time and is shown under "Special".

Transport: "The St. Lawrence River Joint Board of Engineers - Canadian Section" has been abolished.

Note re Revisions to March data

As originally published the March report included some February data for the department of National Defence. The major adjustments resulting from inclusion of March information are increases; (1) of 1,323 casual employees and (2) of \$325,925 regular earnings for prevailing rate and \$360,999 for casual staff.

PART C

EXPLANATORY NOTES

The present statistics are the result of a monthly survey of Government of Canada employment published since April, 1952. This monthly report has had three different titles. In the period April, 1952 to August, 1953 it was known as "Government of Canada Employment and Payrolls". In the period September, 1953 to March, 1954 the report was known as "Federal Government Employment and Payrolls" and since April, 1954 the name of the publication has been "Federal Government Employment". The monthly statistical series replaces one formerly issued annually under several different titles the first of which was "Statistics of the Civil Service of Canada". This report was issued annually for the fiscal years ended March 31, 1925 to 1931. Combined reports with the above title were issued for the fiscal years ended 1932 to 1934; 1935 and 1936; and 1937 to 1939. The title of the report was changed to "Summary Statistics of the Civil Service of Canada". Reports under this title were issued in a combined form for the fiscal years ended 1940 to 1942 and for each of the fiscal years ended 1943 to 1948. The title was again changed to "Summary Statistics, Federal Civil Service Employment and Payrolls" for the year ended March 31, 1949. For the years ended March 31, 1950, 1951 and 1952 three reports were issued entitled "Federal Civil Service Employment and Payrolls".

The present monthly report is composed of three parts. Introduction summarizes, in Table 1, data on all persons employed by the Federal Government and its agencies. Part A presents, in Table 2, employment data of agency and proprietary corporations and other agencies by province. A list of these bodies appears on page 24 of this section. Part B consists of Tables 3 to 10 which present statistics relating to the departmental branches, services and corporations listed in the Financial Administration Act plus a few which are not listed therein. Data on these is presented in Tables 3 to 10 as detailed in the table of contents on page 3. A table of numbers and rates of hirings and separations for salaried employees is included quarterly.

Statistics in the current report are presented in a form which is intended to facilitate, among other uses, direct comparisons between 1) numbers employed (reported in this publication), and 2) the number of positions established for each administrative branch of government (published in the Estimates of Canada).

The statistics relate only to civilian employees and to members of the Royal Canadian Mounted Police Force (which being a semi-military organization are not considered as being civilian). Members of the Armed Services are excluded. Deputy Ministers are included in the staffs of Departmental Services but Ministers of the Crown and the Solicitor-General are excluded. For Boards, Commissions and other bodies, those members or officers serving on a full-time basis and whose salaries are fixed accordingly, are included, whereas directors or board members, who are paid on a per diem basis or who receive a nominal honourarium for their services are excluded.

A description of the sources of data and the bases upon which the information is submitted and prepared for use is contained in the following outline.

INTRODUCTIONTOTAL FEDERAL GOVERNMENT EMPLOYMENT AND PAYROLLS (TABLE 1)

Table 1 groups all employees of: 1) departmental branches, services and corporations, and 2) agency and proprietary corporations and other agencies. Each of these two categories are broken down into its component parts resulting in five main groups. These are: 1) departments, 2) departmental corporations, 3) agency corporations, 4) proprietary corporations, and 5) other agencies. The first two combine overtime earnings and retroactive payments reported with regular earnings to obtain gross earnings while the latter three record as gross earnings all moneys earned by the employees covered.

PART AAGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES (TABLE 2)

Statistics for these organizations are collected in two ways: 1) directly from the corporation or agency; 2) through the Employment Section of the Dominion Bureau of Statistics. The statistics reported do not permit a presentation by class, i.e. salaried, casuals and others, etc., hence com-

posite figures are published. In most cases, employees reported represent the staff strength during the final pay period of the month. Gross earnings are reported and they accordingly include overtime and other types of special payments in addition to regular salaries and wages. Organizations included in Table 2 are listed by group as follows:

Agency Corporations

Atomic Energy of Canada Ltd.
Canadian Arsenal Ltd.
Canadian Commercial Corp.
Canadian Patents and Development Ltd.
Crown Assets Disposal Corp.

Defence Construction (1951) Ltd.
National Battlefields Commission
National Capital Commission
National Harbours Board
Northern Canada Power Commission

Proprietary Corporations

Canadian Broadcasting Corp.
Canadian National Railways
Canadian Overseas Telecommunication Corp.
Central Mortgage and Housing Corp.
Cornwall International Bridge Company Ltd.
Eldorado Aviation Ltd.
Eldorado Mining and Refining Ltd.

Export Credits Insurance Corp.
Farm Credit Corporation
Northern Transportation Company Ltd.
Polymer Corporation Ltd.
St. Lawrence Seaway Authority
Trans-Canada Air Lines

Other Agencies

Bank of Canada
Canadian Wheat Board
Industrial Development Bank

Northern Ontario Pipe Line Crown Corp.
Office of the Custodian

The Canadian Farm Loan Board has been changed in name to the Farm Credit Corporation.

The Agency and Proprietary Corporations are listed in the Financial Administration Act under Schedules C and D respectively. The Glossary on page 30 of this report contains definitions of these two types of corporations. The "Other Agencies" though not listed or defined in the Financial Administration Act are nevertheless organizations of the Crown.

PART B

DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS (TABLES 3 TO 10)

Salaried employees

Salaried employees as used in this report means all persons paid on the basis of a stated annual salary rate, with the exception of the group known as "ships' officers". The latter group are excluded because of their special treatment under the Financial Administration Act. For a more complete definition of "salaried employees" see the Glossary.

The basic data is recorded in two ways: 1) by employee; 2) by group of employees.

1) By employee:

Individual position records are maintained for the majority of salaried positions in the departmental branches, services and corporations of the Government of Canada (the remainder will be treated under "2) by group of employees"). The position record cards contain data on the occupants of these positions. The records are amended monthly on the basis of documents received authorizing changes concerning positions and/or their occupants - thus affording a count of persons employed on the last day of the month. Because of an unavoidable time lag in the routing of position and personnel changes through normal channels, it is not always possible to include all changes applicable to any month in statistics for that month. The count of employees for a given month, therefore, will not always represent the exact staff strength at the end of that month. Regular earnings, being based on annual salary rates, will not necessarily equal the actual amounts paid in salaries for any given month. These factors are not, however, significant enough to seriously affect the usefulness of the statistics.

2) By group of employees:

No individual position records are maintained for the remainder of salaried employees in departmental branches, services and corporations. Statistics on these employees are collected by means of forms or statements, giving: the staff strength at the end of the month, regular earnings earned during the month including earnings of those off-strength at the end of the month, retroactive payments and overtime payments. The following report in this manner:

- Atomic Energy Control Board
- Defence Research Board
- Fisheries Research Board
- Legislation:
 - The Senate (Sessional employees)
 - House of Commons (Sessional employees)
- National Film Board
- National Research Council
- Post Office (employees paid from Postal Revenues)
- Royal Canadian Mounted Police (Force)
- Royal Commissions

All salaried "locally-engaged" employees in foreign countries are also reported on forms. See the Glossary for definition.

Non-Salaried Employees (Prevailing Rate, Ships' Officers and Crews, Casuals and Others)

Statistics on non-salaried employees in departmental branches, services and corporations are collected, in all cases, by means of forms or statements. These summary reports based on payroll and other records indicate the staff strength, regular earnings, retroactive payments and overtime payments. Prevailing rate and casual "locally-engaged" employees are also reported by this means. The ships' officers, which are in fact salaried employees, are included in the non-salaried group owing to their special treatment under the Financial Administration Act.

Departmental Corporations

In order to distinguish them from departmental branches and services, the following are departmental corporations included in this report and listed in Schedule B of the Financial Administration Act. A definition appears in the Glossary:

- Agricultural Prices Support Board
- Atomic Energy Control Board
- Canadian Maritime Commission
- Director of Soldier Settlement
- The Director, The Veterans' Land Act
- Dominion Coal Board
- Fisheries Prices Support Board
- National Gallery of Canada
- National Research Council
- Unemployment Insurance Commission

CLASSIFICATION BY FUNCTION

The statistics of departmental branches, services and corporations are classified in tables 6 and 7 by function. The purpose of providing a classification by function is to supply a means of studying the operations of governments without the complications resulting from differences in administrative establishment which occur from time to time in each government and between governments. This analysis is useful in three ways. First it permits a detailed study of employment by the Government of Canada according to the main purposes or functions. Since these functions are not subject to the periodic changes which alter the administrative structure of the government it is possible to develop a statistical series which, with minor exceptions, is consistent over an extend period of time. Second, since differences in administrative establishments are eliminated it is possible to make meaningful comparisons between federal government expenditures on employment and similar expenditures by other levels of government. Third, an analysis of the relationship between expenditures on employment and total expenditures can be made with regard to each function. The use of percentages will facilitate

comparisons especially between levels of government.

The classification by function reflects the purpose served by the expenditure, and employment statistics presented on this basis have been classified in accordance with concepts evolved by the Public Finance Section of the Dominion Bureau of Statistics for the presentation of financial statistics. The following listing shows how the administrative detail has been applied to the various functions and will serve to indicate clearly the meaning of each function. Since "other" is actually a group of functions, the component parts have been listed separately so that each may be self-evident.

COMPARABILITY BETWEEN NUMBERS AND EARNINGS

The user of these statistics is advised to avoid making direct comparisons between the numbers of persons reported and the earnings reported, the reason for this being that numbers relate to the last day of the month wherever possible and otherwise to the final pay period of the month. Since in certain categories, especially casual employment, a very considerable fluctuation in numbers employed may occur during any month, it may be seen that a comparison between the earnings of all persons employed during the month and the numbers on strength at the end of the month would, in many cases, not be valid.

COMPARABILITY WITH FORMER SURVEY

The statistical series produced on an annual basis for the years 1925 to 1952 was intended to include the number of permanent and temporary employees in the general administrative government services (this broadly speaking, included those coming under the Civil Service Act). In addition, the earnings of certain classes of employees referred to as "non-enumerated" classes were shown in the publication. The survey did not include a count of these "non-enumerated" classes. Since there was a distinct variation in the interpretation by departments of what constituted these groups there resulted differences between departments in the coverage of employees and earnings included in the annual series. The monthly series which commenced in April, 1952 includes employees not formerly counted in the tabulations as well as a number of government services not previously included, and consequently the statistics should not be compared with the former annual series.

GLOSSARY OF PRINCIPAL TERMS USED

1. **Department:** Also known as departmental services, departments are the named divisions of the Government of Canada as defined in the Financial Administration Act.
2. **Crown Corporations:** A Crown Corporation is a corporation which is ultimately accountable, through a Minister, to Parliament for the conduct of its affairs, and includes the corporations named in the Financial Administration Act as departmental corporations, agency corporations and proprietary corporations.
3. **Departmental Corporation:** A Crown Corporation which is a servant or agent of Her Majesty in right of Canada and is responsible for administrative, supervisory, or regulatory services of a governmental nature.
4. **Agency Corporation:** A Crown Corporation which is an agent of Her Majesty in right of Canada and is responsible for the management of trading or service operations on a quasi-commercial basis, or for the management of procurement, construction or disposal activities on behalf of Her Majesty in right of Canada.
5. **Proprietary Corporation:** A Crown Corporation which (1) is responsible for the management of lending or financial operations, or for the management of commercial and industrial operations involving the production of or dealing in goods and the supplying of services to the public, and (2) is ordinarily required to conduct its operations without appropriations from the Federal Treasury.
6. **Salaried employee:** An employee who is paid on the basis of an annual salary rate and occupies a salaried position authorized by the Treasury Board or the Privy Council. These employees and positions may be of a continuing, term, seasonal, sessional, or part time nature. The positions are specified together with appropriate funds, in the Estimates of Canada and supplementary authorizing documents and are located in departmental branches, services and corporations subject to the regulation of the Treasury Board.
7. **Prevailing rate employee:** An employee employed in the Public Service of Canada whose remuneration is based on the rate of pay prevailing in the area where he is employed for the class of work he does. His rate of pay may also be on rates prevailing in any area in Canada for work comparable to that which he does. The rates may be hourly, daily, weekly or monthly. These employees are governed by the Financial Administration Act - Prevailing Rate Employees General Regulations. They are occupants of positions authorized by the Treasury Board. The positions, together with appropriate funds, are listed in the Estimates of Canada and supplementary authorizing documents.
8. **Ships' officer:** A person employed in the Public Service for duty on a ship that is the property of or chartered by or on behalf of Her Majesty as a master, mate or marine engineer who is duly certified under the Canadian Shipping Act or in a position designated by the Treasury Board as that of a ship's officer. Excluded are members of the Armed Forces and the Royal Canadian Mounted Police. An annual rate of pay is determined by the Treasury Board after consultation with the Department of Labour. These employees are governed by the Financial Administration Act - Ships' Officer's Regulations. They are occupants of positions established by the Treasury Board and these positions, together with appropriate funds, are listed in the Estimates of Canada.
9. **Ships' crew employee:** A person employed in the Public Service for duty on a ship that is the property of or chartered by or on behalf of Her Majesty as an unlicensed crew member. Excluded are members of the Armed Forces and the Royal Canadian Mounted Police. A monthly rate of pay is determined by the Treasury Board after consultation with the Department of Labour. These employees are governed by the Financial Administration Act - Ships' Crews Regulations. They are occupants of positions established by the Treasury Board and these positions, together with appropriate funds, are listed in the Estimates of Canada.
10. **Casual and other employee:** All employees in Departments and Departmental corporations of the Government of Canada who are not defined as Salaried, Prevailing Rate, Ships' Officer or Ships' Crew employees.
11. **Locally-Engaged employees:** These are persons, usually citizens of foreign countries, employed by the Government of Canada to perform duties in their country. Their salary or wage is stated in the currency of the country where they are employed. Salaried locally-engaged employees are those persons occupying positions: (1) in classes having the suffix U.K. i.e., Clerk 2(UK), Stenographer 1(UK), etc.; (2) as Assistants. While most are engaged as Salaried or prevailing rate staff some locally-engaged employees are employed on a casual basis and are paid from the vote "Casuals and

Others". The term "locally-engaged" excludes Canadian employees posted abroad.

12. Regular earnings: The basic pay of employees excluding any special payments such as overtime, living allowances, etc. All regular earnings for the month, including those of persons off-strength at the end of the month are included in the tables where the title is used.
13. Earnings: As used in tables 1 & 2 this term means gross earnings including overtime, retroactive pay and other special payments in addition to regular earnings.
14. Hiring: The initial appointment of a person to the reporting Department whether as a new employee in the Government Service or by transfer from another Department. Movements within a Department are not considered as hirings.
15. Separations: The termination of service of an employee in the reporting Department by leaving the Government Service or by transfer to another Department. Movements within a Department are not considered as separations.

FEDERAL GOVERNMENT EMPLOYMENT

May, 1960

INTRODUCTION

A complete description of the method of collection and the statistics included in this series was given, together with other background detail, in the report for April, 1960.

Total staff strength of the Federal Government including all its corporations and agencies increased by more than 7,000 from April, 1960 but was still 6,453 below comparable totals for May, 1959. Earnings of these employees increased by some \$3,713,000 from April, 1960 and \$1,684,000 from comparable totals for May, 1959. Large variations were recorded in each group of employees during May when compared with April, 1960. The number of employees increased in Departments by 3,775, in Agency Corporations by 290, in Proprietary Corporations by 3,371 and in Other Agencies by 25 but decreased by 393 in Departmental Corporations. Earnings of these employees increased in Departments by \$1,441,000, in Departmental Corporations by \$80,000, in Agency Corporations by \$21,000 in Proprietary Corporations by \$2,158,000 and in Other Agencies by \$13,000.

FEDERAL GOVERNMENT EMPLOYMENT

May, 1960

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES

Staff of Agency and Proprietary Corporations and Other Agencies was almost 3,700 higher in May than in April, 1960. Earnings of these employees increased by \$2,192,000 from April. The increases, which were seasonal in nature, were reported by a number of enterprises led by the Canadian National Railways.

To make possible a comparison with data for the previous year, figures excluding staff located abroad (outside Canada) are shown in footnotes 2/, 3/ and 4/. This has been necessitated because data pertaining to the staff abroad were not included prior to November, 1959.

FEDERAL GOVERNMENT EMPLOYMENT

May, 1960

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS

A number of salary increases effective May 1, 1960 have been included in the earnings of salaried employees. It is estimated that some 12,200 employees had increases amounting to \$380,000. Employment of the Agricultural Stabilization Board, which was not previously reported, is now included departmentally under "Agriculture-Production and Marketing Branch" commencing this month. These employees numbered 87 and had earnings of \$21,970 in May, 1960.

Employment was substantially higher in May, 1960 as compared with April, 1960. The principal variations recorded were: (a) a decrease in salaried employees in the function "Defence Services" and increases in the functions "Recreational and Cultural Services - Parks etc." and "Natural Resources and Primary Industries - (i) Fish and Game and (ii) Lands: Settlement and Agriculture"; (b) increases of prevailing rate employees in the functions "Defence Services", "Recreational and Cultural Services - Parks etc." and "Natural Resources and Primary Industries - Lands etc."; (c) increases of ships' employees in the functions "Transportation and Communications - Waterways" and "Natural Resources and Primary Industries - Fish and Game"; and (d) increases in casual and other staff in the functions "Defence Services", "Transportation and Communications - Airways and Waterways", "Recreational and Cultural Services - Parks etc." and in the residual function "Other-Other" and a decrease in the function "Social Welfare - National Employment Services".

Note re Revisions to April data

As originally published the April report included some March data for the department of National Defence. The major adjustments resulting from inclusion of March information are (a) an increase of 154 prevailing rate employees, (b) a decrease of 508 casual employees and (c) decreases of \$110,130 regular earnings for prevailing rate and \$82,295 for casual staff.

FEDERAL GOVERNMENT EMPLOYMENT

June, 1960

INTRODUCTION

A complete description of the method of collection and the statistics included in this series was given, together with other background detail, in the report for April, 1960.

Some data pertaining to the department of National Defence for June, 1960 were not received in time for inclusion in this report. In order to avoid delay in the release of approximate figures of total employment, May data were used for salaried staff of the Defence Research Board and for prevailing rate, ships' officers and crews and casual staff in the entire department. A study of related data indicates that the number of salaried and ships' officer and crew employees are unlikely to vary to any significant extent, while the number of casual and prevailing rate employees is expected to increase substantially. Comparisons made between the data here published and those for previous months should make allowance for this factor.

FEDERAL GOVERNMENT EMPLOYMENT

June, 1960

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES

The number of employees in Agency and Proprietary Corporations and Other Agencies was almost 3,500 more in June than May, 1960. Increases were recorded in every province and were due principally to seasonal hirings by the Canadian National Railways. Earnings of these employees rose by \$731,000 from May, 1960.

To make possible a comparison with data for the previous year, figures excluding staff located abroad (outside Canada) are shown in footnotes 2/, 3/ and 4/. This has been necessitated because data pertaining to the staff abroad were not included prior to November, 1959.

FEDERAL GOVERNMENT EMPLOYMENT

June, 1960

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS

The salary increases announced during June, 1960 and effective the first of that month have been included in the earnings of salaries employees. It is estimated that some 6,400 employees had increases amounting to \$470,000 for the month.

The number of employees in Departments and Departmental Corporations increased in June, 1960 as compared with May, 1960. The majority of these increases were of a seasonal nature and recorded mainly in the functions "General Government - Executive and Administrative", "Transportation and Communications - a) Airways and b) Waterways", "Recreational and Cultural Services - Parks, etc.", "Natural Resources and Primary Industries - a) Fish and Game, b) Forests, c) Lands etc., d) Minerals and Mines and e) Other" and "Other - Post Office". The only other important change over last month was a decrease in the function "Social Welfare - National Employment Services".

Preliminary figures show that total staff strength was 1,533 less in June, 1960 than June, 1959. This is believed to be the result of using May data for part of National Defence and it is expected that revised figures for June, 1960 will be comparable to June, 1959.

The quarterly statement of hiring and separation data for salaried employees is included in table 10.

FEDERAL GOVERNMENT EMPLOYMENT

July, 1960

INTRODUCTION

A complete description of the method of collection and the statistics included in this series was given, together with other background detail, in the report for April, 1960.

Some data pertaining to the department of National Defence for July, 1960 were not received in time for inclusion in this report. In order to avoid delay in the release of approximate figures of total employment, June data were used for salaried staff of the Defence Research Board and for prevailing rate, ships' officers and crews and casual staff in the entire department. A study of related data indicates that the number of salaried, ships' officers and crew and casual employees are unlikely to vary to any significant extent, while the number of prevailing rate employees may increase slightly.

During July, 1960 the total staff strength of the Federal Government including all its corporations and agencies increased by approximately 3,600 from June, 1960. Earnings of these employees increased by \$2,642,000 as compared with June, 1960. The major increases recorded during July were a) 1,236 employees and \$1,346,000 in Departments and b) 2,347 employees and \$1,354,000 in Proprietary Corporations.

FEDERAL GOVERNMENT EMPLOYMENT

July, 1960

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES

The number of employees in Agency Corporations, Proprietary Corporations and "Other" Agencies increased for the fourth consecutive month in July, 1960 but remained below comparable figures for 1959. There were almost 2,500 more employees in July than June 1960, but 7,166 less than in July 1959. Earnings of these employees increased by \$1,347,000 in July over June, 1960 but were \$3,287,000 lower than comparable totals for last year.

The increase recorded in July over June, 1960 occurred in many provinces and was primarily the result of seasonal hirings by the Canadian National Railways. Reduced employment by this corporation as compared with July 1959 staff strength was the leading cause of lower total Federal Government employment.

To make possible a comparison with data for the previous year, figures excluding staff located abroad (outside Canada) are shown in footnotes 2/ and 3/. This has been necessitated because data pertaining to the staff abroad were not included prior to November, 1959.

July, 1960

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS

The salary increases to Post Office employees announced during July and effective the first of that month have been included in the earnings of salaried employees. It is estimated that some 18,600 Post Office employees had increases amounting to \$600,000 for the month. Other salary increases involving approximately 9,500 employees and estimated earnings of \$300,000 have not been included in this report.

Payments to Ward Aides in the National Health Branch of the department of National Health and Welfare are based on an annual salary rate effective July 1, 1960. These employees which numbered 29 in July and had earnings of \$49,645 for the month were formerly shown under "Prevailing Rate" and are now recorded as "Salaried" employment.

Preliminary figures show that the number of employees in Departments and Departmental Corporations increased by 1,239 in July, 1960 as compared with June, 1960 but was 1,714 lower than July, 1959. The increase in July over June, 1960 is principally the result of seasonal increases in a number of departments while the decrease from July, 1959 was due mainly to lower employment in the department of National Defence.

Notes re Revisions to June data

FEDERAL GOVERNMENT EMPLOYMENT

August, 1960

INTRODUCTION

A complete description of the method of collection and the statistics included in this series was given, together with other background detail, in the report for April, 1960.

Total staff strength of the Federal Government including all its corporations and agencies decreased by 558 in August, 1960 as compared with July, 1960 and by 6,722 from August, 1959. Earnings of these employees increased by \$3,818,000 from July, 1960 and were \$5,863,000 higher than comparable totals for 1959. The major variations recorded during August were a) a decrease of 881 employees and an increase of \$2,494,000 in Departments, b) an increase of \$198,000 in Departmental Corporations and c) increases of 382 employees and \$1,181,000 in Proprietary Corporations. The large increase in the payroll of Departments results mainly from salary increases granted to employees during 1960.

FEDERAL GOVERNMENT EMPLOYMENT

August, 1960

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES

The total number of employees in Agency and Proprietary Corporations and Other Agencies increased slightly in August as compared with July, 1960 but was 6,011 or 4.1% less than August, 1959. Earnings of these employees increased by \$1,127,000 or 2.0% in August over July 1960 but were \$690,000 or 1.3% lower than comparable totals for last year.

The fall in employment from last year, which was recorded mostly in the prairie provinces, was almost entirely the result of a reduction in staff by the Canadian National Railways. The Canadian Arsenals Limited and the Eldorado Mining and Refining Limited were the other corporations responsible for the decline.

To make possible a comparison with data for the previous year, figures excluding staff located abroad (outside Canada) are shown in footnotes 2/ and 3/. This has been necessitated because data pertaining to the staff abroad were not included prior to November, 1959.

August, 1960

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS

Some salary increases effective the first of July have been included in the earnings of Salaried employees for the first time in August, 1960. These increases involved approximately 9,500 employees with estimated monthly increases of \$300,000. The salary increases to some 37,400 employees announced during August and effective the first of that month have also been included in this report. It is estimated that these employees received increases amounting to \$1,350,000, for the month.

The number of employees in Departments and Departmental Corporations in August, 1960 was 909 lower than July, 1960 and 711 less than August, 1959.

The decrease in August over July, 1960 recorded in the function "Defence Services" was the result of seasonal lay-off by the department of National Defence and the drop recorded in the function "General Government-Legislative" was due to the prorogation of Parliament in August, 1960.

There were less employees in August, 1960 as compared with August last year because of lower employment in the departments of National Defence and Public Works. This decrease was only partly offset by increases in a number of departments led by the departments of Post Office and Transport.

Notes re Revisions to July data

The July report included some June data for the Department of National Defence. The adjustments to be made to these figures are:

FEDERAL GOVERNMENT EMPLOYMENT

September, 1960

INTRODUCTION

A complete description of the method of collection and the statistics included in this series was given, together with other background detail, in the report for April, 1960.

At the end of September, 1960 the labour force of the Federal Government combining all its departments, corporations and agencies stood at 346,084, down 4,243 from August, 1960 but higher by 3,463 than September, 1959. Earnings paid during the month under review amounted to \$121,983,000, down \$3,323,000 from the previous month but up \$8,539,000 over September, 1959.

The most significant drop from August 1960 data occurred in departments, down by 1,460 employees and \$492,000 in earnings, and, in proprietary corporations, down 2,465 employees and \$2,947,000 in earnings.

FEDERAL GOVERNMENT EMPLOYMENT

September, 1960

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES

The number of employees in Agency Corporations, Proprietary Corporations and Other Agencies declined in September, 1960 as compared with August, 1960 following an annual seasonal pattern where peak employment is reached during July and August, declines in September.

During September, 1960 employees decreased by 2,679 from August, 1960 and by 7,119 from September, 1959. The earnings paid to employees were \$2,802,000 lower in September as compared with August, 1960 and \$2,162,000 less than September, 1959. Aggregate earnings for the period January 1 to September 30, 1960 were lower by \$5,916,000 than the same period last year.

Decreases in September, 1960 from the preceding month occurred in every province and was the result of seasonal decreases reported by a number of corporations, principally by the Canadian National Railways. This corporation also had lower employment in September, 1960 than in September, 1959.

The Canadian Arsenals Limited and the Eldorado Mining and Refining Limited had smaller staffs than in September 1959 but these were more than offset by increases in staff reported by the Canadian Broadcasting Corporation and the Trans-Canada Air Lines.

To make possible a comparison with data for the previous year, figures excluding staff located abroad (outside Canada) are shown in footnotes 2/ and 3/. This has been necessitated because data pertaining to the staff abroad were not included prior to November, 1959.

FEDERAL GOVERNMENT EMPLOYMENT

September, 1960

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS

Preliminary figures indicate that employees in Departments and Departmental Corporations decreased by 1,564 in September, 1960 from August, 1960 but increased by 2,141 from September 1959. The decrease from August is largely the result of a seasonal decline common to a number of departments, especially the Department of Agriculture. Comparison of staff strength between September, 1960 and September, 1959 shows higher employment in a number of departments particularly in Labour, Post Office and Transport. Earnings paid during the six month period April 1 to September 30, 1960 increased by 6.5 per cent or \$23,900,727 to \$391,021,388 over the same period of 1959. The major reason for the rise was increases to salaried employees announced at various dates during the period.

During September, 1960 some 6,450 employees in the Royal Canadian Mounted Police received an estimated \$225,000 in salary increase.

This report includes August, 1960 data for part of National Defence and it is expected that the revised data for September, 1960 will show somewhat lower employment for that department.

The quarterly statement of hiring and separation data for salaried employees is included in Table 10. Beginning with this issue the data on National Defence is divided in two parts, Main Department and Defence Research Board.

Notes and Definitions

Department – For purposes of this table only, a department is defined as a departmental branch, service or corporation having a separately administered personnel office.

Hiring – The initial appointment of an individual to the reporting department.

Separation – Termination of service of an individual in the reporting department.

Average Employment – The mean monthly average number of employees in each department during the quarter.

Monthly Average – (Hirings and Separations) – The arithmetic mean i.e. one third of the actual hirings and separations for the quarter.

Monthly Rate per 1,000 Employees – (Hirings and Separations) – The rate is computed by the following formula:

$$\frac{\text{Monthly Average (number hired or separated)} \times 1000}{\text{Average Employment (during quarter)}}$$

Notes and Definitions

Department - For purposes of this table only, a department is defined as a departmental branch, service or corporation having a separately administered personnel office.

Hiring - The initial appointment of an individual to the reporting department.

Separation - Termination of service of an individual in the reporting department.

Average Employment - The mean monthly average number of employees in each department during the quarter.

Monthly Average - (Hirings and Separations) - The arithmetic mean i.e. one third of the actual hirings and separations for the quarter.

Monthly Rate per 1,000 Employees - (Hirings and Separations) - The rate is computed by the following formula:

$$\frac{\text{Monthly Average (number hired or separated)} \times 1000}{\text{Average Employment (during quarter)}}$$

FEDERAL GOVERNMENT EMPLOYMENT

October, 1960

INTRODUCTION

A complete description of the method of collection and the statistics included in this series was given, together with other background detail, in the report for April, 1960.

This report includes some September, 1960 data for the department of National Defence. For detail see Part B, page 6.

Total staff strength of the Federal Government including all its corporations and agencies decreased by 3,288 in October, 1960 as compared with September, and by 4,789 from October, 1959. Earnings of these employees decreased by \$402,000 from September, 1960 but were \$3,981,000 higher than totals for October, 1959. The major variations recorded during October, 1960 were a) a decrease of 611 employees and an increase of \$81,000 in Departments, b) an increase of 419 employees and \$52,000 in Departmental Corporations and c) decreases of 2,963 employees and \$506,000 in Proprietary Corporations.

^{1/} For detail see Part B, Table 3 et seq.

^{2/} For detail see Part A, Table 2.

^{3/} In comparing employees and earnings with those for the previous year the following figures should be used: number of employees - 332,392; earnings - \$116,981,000.

^{4/} In comparing earnings with those for the equivalent period of the previous year cumulative earnings of \$1,132,668,000 should be used.

^{5/} In comparing earnings with those for the equivalent period of the previous year cumulative earnings of \$808,230,000 should be used.

October, 1960

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES

The number of employees in Agency and Proprietary Corporations and Other Agencies declined by 3,096 in October, 1960 as compared with September. Earnings of employees of these organizations decreased by \$535,000 during the month.

In October, 1960 the number of employees excluding those employed outside Canada was 134,422 or 7,069 less than in October, 1959. This represented the lowest number recorded for the month of October since the beginning of this series in 1952. The recent substantial reduction of staff has resulted to a large extent from the extensive modernization program of the Canadian National Railways but has been also affected by reductions in passenger train service.

The decrease in October, 1960 from September, 1960 was due principally to a seasonal lay-off of staff by the Canadian National Railways.

To make possible a comparison with data for the previous year, figures excluding staff located abroad (outside Canada) are shown in footnotes 2/, 3/ and 4/. This has been necessitated because data pertaining to the staff abroad were not included prior to November, 1959.

FEDERAL GOVERNMENT EMPLOYMENT

October, 1960

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS

The Royal Commission on Coal, which terminated October 24, 1960, submitted its last report for October. This employment had been included departmentally under "Privy Council-Special".

Some data pertaining to the department of National Defence were not received in time for inclusion in this report. In order to avoid delay in the release of approximate figures of total employment, September data were used for salaried staff of the Defence Research Board and prevailing rate, ships' officers and crews and casual staff in the entire department. A study of related data indicates that the total number of employees is unlikely to vary to any significant extent.

Preliminary figures indicate that the number of Prevailing Rate employees decreased in October, 1960 as compared with September, 1960 while Salaried and Casual employment increased slightly.

Notes re Revisions to September, 1960 data

The September report included some August data for the Department of National Defence. The adjustments to be made to these figures are:

FEDERAL GOVERNMENT EMPLOYMENT

November, 1960

INTRODUCTION

A complete description of the method of collection and the statistics included in this series was given, together with other background detail, in the report for April, 1960.

This report includes the salary increases announced during November. It also includes some September, 1960 data for the department of National Defence. For detail see Part B, page 6.

Preliminary figures show that the total staff strength of the Federal Government declined by 1,510 during November, 1960 and by 3,407 during the last 12 month period. Earnings of these employees were down \$943,000 in November, 1960 as compared with October but up \$6,554,000 from November 1959.

The decline in employment recorded during November, 1960 resulted from a decrease of 3,315 employees and \$1,626,000 in Proprietary Corporations which was only partly offset by increases of 694 employees and \$415,000 in Departments and 1,309 employees and \$302,000 in Departmental Corporations.

FEDERAL GOVERNMENT EMPLOYMENT

November, 1960

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES

The number of employees in Agency and Proprietary Corporations and other Agencies declined by 3,513 or 2.5% in November, 1960 as compared with October, 1960 and 7,964 or 5.4% as compared with November, 1959. Earnings of these employees decreased by \$1,660,000 or 3.1% during the month and \$1,628,000 or 3.0% during the year.

The fall in employment from October, recorded in every province, was seasonal in nature and reported chiefly by the Canadian National Railways.

To make possible a comparison with cumulative totals for the previous year, figures excluding staff located abroad (outside Canada) for the periods January, 1960 - October, 1960 and April, 1960 - October, 1960 are shown in footnotes 2/ and 3/. This has been necessitated because data pertaining to the staff abroad were not included prior to November, 1959.

FEDERAL GOVERNMENT EMPLOYMENT

November, 1960

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS

Available data for the Department of Forestry, which was established by proclamation on October 1, 1960, have been included for the first time in this report. Salary increases for a number of classes, announced during November and effective the first of July, August and October have been included in the earnings of Salaried employees for this month. These increases involved approximately 1,000 employees with estimated total monthly increases of \$50,000.

Some data pertaining to the department of National Defence were not available for inclusion in this report. In order to avoid delay in the release of approximate figures of total employment, September data were used for salaried staff of the Defence Research Board and prevailing rate, ships' officers and crews and casual staff in the entire department. A study of related data indicates that the revised figures for prevailing rate and casual employees will show an increase over these figures.

The number of salaried and casual employees increased substantially while the number of prevailing rate and ships' employees remained virtually unchanged during November, 1960. The principal changes recorded in November from October were a) an increase of salaried staff in the function "General Government - Legislative" due to the opening of the 4th session of the 24th Parliament on November 17th, b) a decrease of casual employees in the function "Transportation and Communications - Waterways" and c) an increase of casual employees in the function "Social Welfare - National Employment Services".

FEDERAL GOVERNMENT EMPLOYMENT

December, 1960

INTRODUCTION

A complete description of the method of collection and the statistics included in this series was given, together with other background detail, in the report for April, 1960.

The quarterly statement of hirings and separations data for salaried employees, for the fourth quarter of 1960 will be included in the January, 1961 report.

This report includes some estimated figures for the Department of National Defence for which only partial data for December are available.

A number of employees which were not previously reported are included for the first time in this report. For detail see Part B, page 6.

A decrease of some 3,600 employees in Agency and Proprietary Corporations was only partly offset by an increase of some 1,100 employees in Departments and Departmental Corporations and, as a result, an overall decrease of 2,522 employees occurred in December, 1960 as compared with November. Total earnings of these employees however, increased by \$752,000.

The total number of persons employed by the Government of Canada and its agencies remained virtually unchanged in December, 1960 as compared with December, 1959 but their earnings increased by almost \$7,200,000. Comparable cumulative totals show that they received some \$36,000,000 more during 1960 than 1959.

December, 1960

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES

The number of employees in Agency and Proprietary Corporations and Other Agencies declined by 3,607 or 2.6% in December, 1960 as compared with November, 1960 and 7,544 or 5.3% when contrasted with December, 1959. Earnings of these employees decreased by \$384,000 or 0.7% during the month and \$1,831,000 or 3.4% during the year. Comparable cumulative totals show that employees of these organizations received \$12,132,000 less in 1960 than in 1959.

The fall in employment during December, recorded in every province except Prince Edward Island and Nova Scotia, was the result of decreases reported by the Canadian National Railways and the National Harbours Board.

To make possible a comparison with cumulative totals for the previous year figures excluding staff located abroad (outside Canada) prior to November 1960 have been prepared and are shown in footnotes 2/ and 3/. This has been necessitated because data pertaining to the staff abroad were not included prior to November, 1959.

FEDERAL GOVERNMENT EMPLOYMENT

December, 1960

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS

Some prevailing rate employees of the Department of Veterans Affairs, which were not previously reported, have been included for the first time this month. They numbered 280 and had earnings of \$69,692 in December, 1960.

In order to avoid delay in the release of approximate figures of total employment, estimated figures have been included for salaried staff of Defence Research and Development and prevailing rate, ships' officers and crew and casual staff in the entire department of National Defence.

The major changes recorded during December, 1960 were a) increases in prevailing rate employees in the function "Veterans' Pensions and Other Benefits" (due to the inclusion of Department of Veterans Affairs employees mentioned above) and in the function "Recreational and Cultural services - Parks etc." b) a decrease in ships' employees in the function "Transportation and Communications - Waterways" and c) decreased numbers of casual employees in several functions, principally "Transportation and Communications - Waterways" and "Other -Post Office". These were more than offset by substantial increases in the functions "Defence Services" and "Social Welfare - National Employment Services."

Regular earnings of all employees in Departments and Departmental Corporations increased by \$46,710,000 or 6.5% during 1960 as compared with 1959.

NOTE

A complete description of the method of collection and the statistics included in this series was given, together with other background detail, in the report for April, 1960.

INTRODUCTION

The quarterly statement of hirings and separations data for salaried employees, for the fourth quarter of 1960 is shown on pages 22 to 25 of this report.

This report includes some estimated figures for the Department of National Defence for which only partial data for January are available. For detail see Part B, page 6.

The total number of employees of the Government of Canada including its corporations and agencies increased only slightly in January, 1961 as compared with December, 1960 but was 3,472 higher than January, 1960. Earnings decreased by \$386,000 from December, 1960 but were \$8,478,000 higher than January, 1960.

The main changes recorded during January, 1961 were a) an increase of 1,899 employees and a decrease of \$154,000 in Departments and b) a decrease of 1,408 employees and \$241,000 in Proprietary Corporations.

FEDERAL GOVERNMENT EMPLOYMENT

January, 1961

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES

The number of employees in Agency and Proprietary Corporations and Other Agencies decreased by 1,529 or 1.1% in January, 1961 as compared with December, 1960 and by 6,079 or 4.3% as compared with January, 1960. Earnings of these employees were \$317,000 or 0.6% lower than December, 1960 and \$649,000 or 1.3% lower than January, 1960.

The decline in employment during January, 1961 over December, 1960 was most substantial in Saskatchewan and Ontario, whereas New Brunswick recorded a sizeable increase. These variations are attributed mainly to the Canadian National Railways.

To make possible a comparison with the cumulative total for the previous year, figures excluding staff located abroad (outside Canada) prior to November, 1960 have been prepared and are shown in footnote 2/. This has been necessitated because data pertaining to the staff abroad were not included prior to November, 1959.

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS

In order to avoid delay in the release of approximate figures of total employment, estimate figures have been included for salaried staff of Defence Research and Development and prevailing rate ships' officers and crew and casual staff in the entire department of National Defence.

Preliminary figures for January, 1961 indicate that the total staff increased by 1,832 employees during the month. The most important increase was recorded in casual employees in the function "Defence Services". Other notable changes recorded during the month were a) an increase in salaried employees in the function "General Government - Executive and Administrative" b) an increase in prevailing rate employees in the function "Recreational and Cultural Services - Parks, etc." c) increases in casual employees in the functions "Transportation and Communications - Airways" and "Other - Post Office" and d) a decrease in casual employees in the function "Social Welfare - National Employment Services".

Notes and Definitions

Department - For purposes of this table only, a department is defined as a departmental branch, service or corporation having a separately administered personnel office.

Hiring - The initial appointment of an individual to the reporting department.

Separation - Termination of service of an individual in the reporting department.

Average Employment - The mean monthly average number of employees in each department during the quarter.

Monthly Average - (Hirings and Separations) - The arithmetic mean i.e. one third of the actual hirings and separations for the quarter.

Monthly Rate per 1,000 Employees - (Hirings and Separations) - The rate is computed by the following formula:

$$\frac{\text{Monthly Average (number hired or separated)} \times 1000}{\text{Average Employment (during quarter)}}$$

Notes and Definitions

Department - For purposes of this table only, a department is defined as a departmental branch, service or corporation having a separately administered personnel office.

Hiring - The initial appointment of an individual to the reporting department.

Separation - Termination of service of an individual in the reporting department.

Average Employment - The mean monthly average number of employees in each department during the quarter.

Monthly Average - (Hirings and Separations) - The arithmetic mean i.e. one third of the actual hirings and separations for the quarter.

Monthly Rate per 1,000 Employees - (Hirings and Separations) - The rate is computed by the following formula:

$$\frac{\text{Monthly Average (number hired or separated)} \times 1000}{\text{Average Employment (during quarter)}}$$

FEDERAL GOVERNMENT EMPLOYMENT

February, 1961

NOTE

A complete description of the method of collection and the statistics included in this series was given, together with other background detail, in the report for April, 1960

INTRODUCTION

This report includes some estimated figures for the Department of National Defence for which only partial data for February are available. For detail see Part B, page 6.

Earnings of Christmas helpers and payments for overtime worked by salaried employees in the Post Office department during the 1960 Christmas period are recorded in this report.

Preliminary figures indicate that the total number of employees of the Government of Canada including its corporations and agencies declined by 1,144 in February, 1961 as compared with January, 1961 but was 2,137 higher than February, 1960. Earnings of these employees were down \$1,517,000 in February, 1961 as compared with the previous month but up \$6,564,000 from February, 1960.

The decline recorded during February, 1961 over the previous month resulted from decreases of 354 employees and \$73,000 in Departmental Corporations and 1,657 employees and \$2,328,000 in Proprietary Corporations but was partly offset by an increase of 845 employees and \$865,000 in Department

FEDERAL GOVERNMENT EMPLOYMENT

February, 1961

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES

The number of employees in Agency and Proprietary Corporations and Other Agencies decreased for the sixth consecutive month. In February, 1961 there were 1,635 fewer employees than in January, 1961 and 7,919 fewer than in February, 1960.

All provinces, except Prince Edward Island, Alberta and British Columbia, shared in the decline from January, 1961, which was mainly the result of seasonal lay-off by the Canadian National Railways.

To make possible a comparison with the cumulative total for the previous year, the cumulative earnings excluding staff located abroad (outside Canada) for the period April, 1960 - October, 1960 are shown in footnote 2/. This has been necessitated because data pertaining to the staff abroad were not included prior to November, 1959.

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS

In order to avoid delay in the release of total employment data, estimated figures have been included for salaried staff of Defence Research and Development, and prevailing rate, ships' officers and crew and casual staff in the entire department of National Defence.

Preliminary figures indicate that during February, 1961 the number of prevailing rate, ships' officers and crews and casual employees remained virtually unchanged while the number of salaried employees increased slightly. The only notable changes during the month pertained to casual employees which reported an increase in the function "Defence Services" and a decrease in the function "Social Welfare - National Employment Services".

FEDERAL GOVERNMENT EMPLOYMENT

MARCH, 1961

NOTE

A complete description of the method of collection and the statistics included in this series was given, together with other background detail, in the report for April, 1960.

INTRODUCTION

This report includes some estimated figures for the Department of National Defence for which March data are only partially available. For detail see Part B, page 6.

Preliminary figures indicate that the total staff of the Federal Government, including its corporations and agencies decreased by 190 in March, 1961 as compared with February, 1961. This resulted from decreases of 1,734 employees in Departments and 245 in Departmental Corporations which were partly offset by increases of 109 in Agency Corporations, 1676 in Proprietary Corporations and 4 in other Agencies. During March, 1961 the earnings of these employees decreased by \$1,248,000 in Departments and increased by \$6,000 in Departmental Corporations, \$59,000 in Agency Corporations, \$3,091,000 in Proprietary Corporations and \$8,000 in Other Agencies resulting in an overall increase of \$1,916,000. The staff total decreased by 345 and the earnings of these employees increased by \$8,311,000 in March, 1961 as compared with March, 1960.

Comparable figures show that the total earnings of Federal Government employees for the fiscal year ended March 31, 1961 was up by \$54,267,000 or 4% from the fiscal year ended March 31, 1960.

Agency and proprietary corporations and other agencies recorded a drop of 2.9 p.c. in payroll for the 1960-61 fiscal year from 1959-60. Departmental branches, services and corporations on the other hand showed an increase of 9.9 p.c. in amounts paid to employees.

March, 1961

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES

After declining for six consecutive months, employment in Agency and Proprietary Corporations and other agencies increased by 1,789 in March, 1961 as compared with February, 1961 but was still 6,117 employees fewer than in March, 1960. Earnings of these employees in March, 1961 were up \$3,158,000 from February and down \$88,000 from March, 1960.

The rise in employment during March, 1960 was mainly due to Canadian National Railways increases in New Brunswick and Quebec.

Comparable totals show that the earnings for the fiscal year ended March 31, 1961 were \$18,163,000 less than those for the previous fiscal year.

To make possible a comparison with the total for the previous year, cumulative earnings excluding staff located abroad (outside Canada) for the period April-October, 1960 are shown in footnote 2/. This has been necessitated because data pertaining to the staff abroad were not included prior to November, 1959.

FEDERAL GOVERNMENT EMPLOYMENT

March, 1961

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS

Employment data of the Royal Commission on Government Organization, which was established on September 16, 1960 by order-in-council, have been included for the first time in this report. These data are included in tables 6 and 7 under the function "General Government - Executive and Administrative" and in tables 8 and 9 under "Privy Council - Special".

In order to avoid delay in the release of total employment data, preliminary estimates have been included for salaried staff of Defence Research and Development, and prevailing rate, ships' officers and crews and casual staff in the entire department of National Defence.

Preliminary figures indicate that the total number of employees in Departments and Departmental Corporations in March, 1961 was 1,979 less than February, 1961 and 5,772 higher than March, 1960.

During March, 1961 the number of Salaried employees increased slightly over February totals the number of casual employees decreased substantially and the number of prevailing rate and ships' employees remained virtually unchanged. The increase in salaried staff was recorded mainly in the functions "General Government - Executive and Administrative" and "Protection of Persons and Property - Police Protection". Casual employees decreased principally in the function "Defence Services" and "Social Welfare - National Employment Services".

During the fiscal year 1960-61 the majority of departments led by Northern Affairs and National Resources, Post Office and Transport reported increases in staff. The only notable exceptions were the departments of National Defence and National Revenue which had fewer employees.

FEDERAL GOVERNMENT EMPLOYMENT

APRIL, 1961

NOTE

A complete description of the method of collection and the statistics included in this series is given, together with other background detail, in Part C of this report.

INTRODUCTION

The quarterly statement of hirings and separations data for salaried employees for the first quarter of 1961 is included in this report.

This report includes some estimated figures for the Department of National Defence for which April, 1961 data are only partially available. For detail, see tables under Part B.

Preliminary figures indicate that the total staff of the Government of Canada including its corporations and agencies declined by 1,471 from 336,011 in March, 1961 to 334,540 in April, 1961 but was 318 higher than in April, 1960. Earnings for April, 1961 amounted to \$119,151,000 down by \$1,980,000 from March, 1961 but higher by \$5,802,000 than in April, 1960.

The staff strength was lower in April than in the previous month in four of the five groups of Federal organizations with Agency Corporations being the only group to show higher employment. The most significant change occurred in Proprietary Corporations where the number of employees decreased by 1,216 from 123,309 in March, 1961 to 122,093 in April and the monthly earnings decreased by \$2,212,000 from \$47,815,000 in March, 1961 to \$45,603,000 in April.

APRIL, 1961

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES

The number of employees in Agency and Proprietary Corporations and Other Agencies decreased by 918 in April, 1961 from March and was lower by 5,179 as compared with April, 1960. Earnings of these employees in April, 1961 were down by \$2,011,000 from March and by \$1,463,000 from April, 1960.

The largest employer, Canadian National Railways, recorded a substantial staff increase in Ontario which was more than offset by decreases in Nova Scotia, New Brunswick and Quebec to result in decline in employment of the system. The National Harbours Board and Trans-Canada Airlines employed additional staff in April over March.

APRIL, 1961

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS

In order to avoid delay in the release of this report, estimated figures have been included for salaried staff of Defence Research and Development and prevailing rate, ships' officers and crews and casual staff in the entire department of National Defence.

Preliminary figures for April, 1961 indicate that the total staff decreased slightly by 553 employees during the month. The most important variations in staff strength from the previous month are: a) decrease of casual employees in the function "Transportation and Communications - Airways"; b) decrease of salaried staff in "Natural Resources and Primary Industries - Lands: Settlement and Agriculture"; c) decrease of casual employment in "Social Welfare - National Employment Services"; d) increase of salaried in "Natural Resources and Primary Industries - Forests"; e) increase of salaried in "Social Welfare - National Employment Services".

Following are the major changes in the organization of departments effective April, 1961:

Board of Grain Commissioners: transferred from Trade and Commerce to Agriculture

External Aid Office: known formerly as Economic and Technical Assistance Branch of Trade and Commerce; it has now been transferred to External Affairs

The Department of Forestry was proclaimed with effect on December 1st, 1960. This is the first month in which staff in any considerable numbers have been shown for the Department. In previous months the Departments of Agriculture and of Northern Affairs and National Resources had continued to report the staffs which were being gradually transferred to the new department.

Notes and Definitions:

Department — For purposes of this table only, the term "department" is broadened to include departmental branches or services having a separately administered personnel office.

Hiring — The initial appointment of an individual to the reporting department.

Separation — Termination of service of an individual in the reporting department.

* Rates are omitted for departments with less than 100 employees as small changes in the number hired or separated result in abnormal changes in rates. Aggregates for these departments are given in "Total—Departments with less than 100 employees", as well as in "Total—All Departments".

Figures may not add due to rounding.

PART C - EXPLANATORY NOTES

The present statistics are the result of a monthly survey of Government of Canada employment published since April, 1952. This monthly report has had three different titles. In the period April, 1952 to August, 1953 it was known as "Government of Canada Employment and Payrolls". In the period September, 1953 to March, 1954 the report was known as "Federal Government Employment and Payrolls" and since April, 1954 the name of the publication has been "Federal Government Employment". The monthly statistical series replaces one formerly issued annually under several different titles the first of which was "Statistics of the Civil Service of Canada". This report was issued annually for the fiscal years ended March 31, 1925 to 1931. Combined reports with the above title were issued for the fiscal years ended 1932 to 1934; 1935 and 1936; and 1937 to 1939. The title of the report was changed to "Summary Statistics of the Civil Service of Canada". Reports under this title were issued in a combined form for the fiscal years ended 1940 to 1942 and for each of the fiscal years ended 1943 to 1948. The title was again changed to "Summary Statistics, Federal Civil Service Employment and Payrolls" for the year ended March 31, 1949. For the years ended March 31, 1950, 1951 and 1952 three reports were issued entitled "Federal Civil Service Employment and Payrolls".

The present monthly report is composed of three parts. Introduction summarizes, in Table 1, data on all persons employed by the Federal Government and its agencies. Part A presents, in Table 2, employment data of agency and proprietary corporations and other agencies by province. A list of these bodies appears on page 32 of this section. Part B consists of Tables 3 to 11 which present statistics relating to the departmental branches, services and corporations listed in the Financial Administration Act plus a few which are not listed therein. Data on these is presented in Tables 3 to 11 as detailed in the table of contents on page 3. The table on numbers and rates of hirings and separations for salaried employees is included quarterly.

Statistics are presented in a form which is intended to facilitate, among other uses, direct comparisons between 1) numbers employed (reported in this publication), and 2) the number of positions established for each administrative branch of government (published in the Estimates of Canada).

The statistics relate only to civilian employees and to members of the Royal Canadian Mounted Police Force (which being a semi-military organization are not considered as being civilian). Members of the Armed Services are excluded. Deputy Ministers are included in the staffs of Departmental Services but Ministers of the Crown and the Solicitor-General are excluded. For Boards, Commissions and other bodies, those members or officers serving on a full-time basis and whose salaries are fixed accordingly, are included, whereas directors or board members, who are paid on a per diem basis or who receive a nominal honourarium for their services are excluded.

A description of the sources of data and the means by which the information is submitted and prepared for use is contained in the following outline.

INTRODUCTIONTOTAL FEDERAL GOVERNMENT EMPLOYMENT AND PAYROLLS (TABLE 1)

Table 1 groups all employees of: 1) departmental branches, services and corporations, and 2) agency and proprietary corporations and other agencies. Each of these two categories are broken down into its component parts resulting in five main groups. There are: 1) departments, 2) departmental corporations, 3) agency corporations, 4) proprietary corporations, and 5) other agencies. The first two combine overtime earnings and retroactive payments reported with regular earnings to obtain gross earnings while the latter three record as gross earnings all moneys earned by the employees covered.

PART AAGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES (TABLE 2)

Statistics for these organizations are collected in two ways: 1) directly from the corporation or agency; 2) through the Employment Section of the Dominion Bureau of Statistics. The statistics reported do not permit a presentation by class, i.e. salaried, casuals and others, etc., hence composite figures are published. In most cases, employees reported represent the staff strength during the final pay period of the month. Gross earnings are reported and they accordingly include overtime and other types of special payments in addition to regular salaries and wages. Organizations included in Table 2 are listed by group as follows:

Agency Corporations

Atomic Energy of Canada Ltd.
Canadian Arsenals Ltd.
Canadian Commercial Corp.
Canadian Patents and Development.*
Crown Assets Disposal Corp.

Defence Construction (1951) Ltd.
National Battlefields Commission
National Capital Commission
National Harbours Board
Northern Canada Power Commission

Proprietary Corporations

Canadian Broadcasting Corp.
Canadian National Railways
Canadian Overseas Telcommunication Corp.
Central Mortgage and Housing Corp.
Cornwall International Bridge Company Ltd.
Eldorado Aviation Ltd.
Eldorado Mining and Refining Ltd.

Export Credits Insurance Corp.
Farm Credit Corporation
Northern Transportation Company Ltd.
Polymer Corporation Ltd.
St. Lawrence Seaway Authority
Trans-Canada Air Lines

Other Agencies

Bank of Canada
Canadian Wheat Board
Industrial Development Bank

Northern Ontario Pipe Line Crown Corp.
Office of the Custodian

* This body is staffed by employees of the National Research Council.

The Agency and Proprietary Corporations are listed in the Financial Administration Act under Schedules C and D respectively. The Glossary on page 38 of this report contains definitions of these two types of corporations. The "Other Agencies" though not listed or defined in the Financial Administration Act are nevertheless organizations of the Crown.

PART B

DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS (TABLES 3 TO 11)

Salaried employees

Salaried employees as used in this report means all persons paid on the basis of a stated annual salary rate, with the exception of the group known as "ships' officers". The latter group are excluded because of their special treatment under the Financial Administration Act. For a more complete definition of "salaried employees" see the Glossary.

The basic data is recorded in two ways: 1) by employee; 2) by group of employees.

1) By employee:

Individual position records are maintained for the majority of salaried positions in the departmental branches, services and corporations of the Government of Canada (the remainder will be treated under "2) by group of employees"). The position record cards contain data on the occupants of these positions. The records are amended monthly on the basis of documents received authorizing changes concerning positions and/or their occupants - thus affording a count of persons employed on the last day of the month. Because of an unavoidable time lag in the routing of position and personnel changes through normal channels, it is not always possible to include all changes in the appropriate month. The count of employees for a given month, therefore, will not always represent the exact staff strength at the end of that month. Regular earnings, being based on the annual salary rates, of employees on strength at the month's end, will not necessarily equal the actual amounts paid in salaries during a month. These factors are not, however, sufficiently significant to seriously affect the validity of the statistics.

2) By group of employees:

No individual position records are maintained for the remainder of salaried employees in departmental branches, services and corporations. Statistics on these employees are collected by means of forms or statements, giving: the staff strength at the end of the month, regular earnings earned

during the month including earnings of those off-strength at the end of the month, retroactive payments and overtime payments. The following report in this manner:

- Atomic Energy Control Board
- Defence Research and Development
- Fisheries Research Board of Canada
- Legislation:
 - The Senate (Sessional employees)
 - House of Commons (Sessional employees)
- National Film Board
- National Research Council including the Medical Research Council
- Post Office (part time employees; employees paid from Postal Revenues)
- Royal Canadian Mounted Police (Force)
- Royal Commissions

All salaried "locally-engaged" employees in foreign countries are also reported on forms. See the Glossary for definition.

Non-Salaried Employees (Prevailing Rate, Ships' Officers and Crews, Casuals and Others)

Statistics on non-salaried employees in departmental branches, services and corporations are collected, in all cases, by means of forms or statements. These summary reports based on payroll and other records indicate the staff strength, regular earnings, retroactive payments and overtime payments. Prevailing rate and casual "locally-engaged" employees are also reported by this means. The ships' officers, which are in fact salaried employees, are included in the non-salaried group owing to their special treatment under the Financial Administration Act.

Departmental Corporations

The Departmental Crown Corporations fall under Schedule B of the Financial Administration Act, see the Glossary for definitions. The following lists the Departmental Corporations included in the tables on Departmental Branches, Services and Corporations:

- Agricultural Stabilization Board
- Atomic Energy Control Board
- Canadian Maritime Commission
- Director of Soldier Settlement
- The Director, The Veterans' Land Act
- Dominion Coal Board
- Fisheries Prices Support Board
- National Gallery of Canada
- National Research Council
- Unemployment Insurance Commission

Hirings and Separations of Salaried Employees

Data on hirings and separations of salaried employees was first published in the Federal Government Employment report for December 1959 and covered the quarter October 1 to December 31, 1959. This table, included in the monthly report once each quarter, records hiring and separation numbers, averages and rates by department. "Department", as defined for use in hiring and separation statistics only, means a department, a departmental branch or departmental service which has a separately administered personnel office. For this reason organizations such as the Dominion Bureau of Statistics which are included under a departmental heading (Trade and Commerce) in the main tables are accorded separate departmental status in the table on staff turnover.

Each "department" is considered for purposes of turnover statistics as a separate employing agency. Consequently, movements of personnel between "departments" are treated in the same way as movements into and out of the government service. The aggregate hirings and separations are summed up in "Total - all Departments". It should be noted, therefore, that hiring and separation data for the entire Government of Canada as an employer cannot be secured from this table. The difference between this and the "Total - all Departments" would equal the number of inter-departmental movements which are, in fact, relatively few.

It should also be noted that the totals shown in this table differ from hiring and separation data published by the Civil Service Commission of Canada. The latter organization treats all staff employed under the authority of the Civil Service Act as a complete unit and consequently is concerned only with movements into and out of "Act" employment. The Commission therefore is not concerned with inter-departmental movements of employees but on the other hand is concerned with movements of staff to and from "Act" employment even when such movements occur within a department.

The glossary of terms should be referred to for definitions of certain terms used in the table on hirings and separations. These terms are:

1. Average employment
 2. Monthly average (as pertains to hirings and separations)
 3. Monthly rate per 1,000 employees (as pertains to hirings and separations).
- The section describing the above terms will be found on page 40.

Owing to the fact that relatively small changes in the staff of small departments can result in erratic fluctuations in the hiring and separation rates, such rates are not shown for "departments" with less than 100 employees. The numbers hired and separated as well as the average employment are shown for the use of any person wishing to calculate such rates.

CLASSIFICATION BY FUNCTION

The statistics of departmental branches, services and corporations are classified in tables 6 and 7 by function. The purpose of providing a classification by function is to supply a means of studying the operations of governments without the complications resulting from differences in administrative establishment which occur from time to time in each government and between governments. This analysis is useful in three ways. First it permits a detailed study of employment by the Government of Canada according to the main purposes or functions. Since these functions are not subject to the periodic changes which alter the administrative structure of the government it is possible to develop a statistical series which, with minor exceptions, is consistent over an extended period of time. Second, since differences in administrative establishments are eliminated it is possible to make meaningful comparisons between federal government expenditures on employment and similar expenditures by other levels of government. Third, an analysis of the relationship between expenditures on employment and total expenditures can be made with regard to each function. The use of percentages will facilitate comparisons especially between levels of government.

The classification by function reflects the purpose served by the expenditure, and employment statistics presented on this basis have been classified in accordance with concepts evolved by the Public Finances Section of the Dominion Bureau of Statistics for the presentation of financial statistics. The following listing shows how the administrative detail has been applied to the various functions and will serve to indicate clearly the meaning of each function. Since "other" is actually a group of functions, the component parts have been listed separately so that each may be self-evident.

COMPARABILITY BETWEEN NUMBERS AND EARNINGS

The user of these statistics is advised to avoid making direct comparisons between the numbers of employees reported and the earnings reported, the reason for this being that numbers relate to the last day of the month wherever possible and otherwise to the final pay period of the month. Since in certain categories, especially casual employment, considerable fluctuations in numbers employed frequently occur during a month, it will be seen that a comparison between the earnings of all persons employed during the month and the number on strength at the end of the month would, in many cases, not be valid.

COMPARABILITY WITH FORMER SURVEY

The statistical series produced on an annual basis for the years 1925 to 1952 was intended to include the number of permanent and temporary employees in the general administrative government services (this broadly speaking, included those coming under the Civil Service Act). In addition, the earnings of certain classes of employees referred to as "non-enumerated" classes were shown in the publication. The survey did not include a count of these "non-enumerated" classes. Since there was a distinct variation in the interpretation by departments of what constituted these groups there resulted differences between departments in the coverage of employees and earnings included in the annual series. The monthly series which commenced in April, 1952 includes employees not formerly counted in the tabulations as well as a number of government services not previously included, and consequently the statistics should not be compared with the former annual series.

GLOSSARY OF PRINCIPAL TERMS USED

1. Department: Also known as departmental services, departments are the named divisions of the Government of Canada as defined in the Financial Administration Act. See also 14 and 15 for special cases.
2. Crown corporation: A corporation which is ultimately accountable, through a Minister, to Parliament for the conduct of its affairs, and includes the corporations named in the Financial Administration Act in Schedule B as departmental corporations, in Schedule C as agency corporations and in Schedule D as proprietary corporations.
3. Departmental corporation: A Crown corporation which is a servant or agent of Her Majesty in right of Canada and is responsible for administrative, supervisory, or regulatory services of a governmental nature.
4. Agency corporation: A Crown corporation which is an agent of Her Majesty in right of Canada and is responsible for the management of trading or service operations on a quasi-commercial basis, or for the management of procurement, construction or disposal activities on behalf of Her Majesty in right of Canada.
5. Proprietary corporation: A Crown corporation which (1) is responsible for the management of lending or financial operations, or for the management of commercial and industrial operations involving the production of or dealing in goods and the supplying of services to the public, and (2) is ordinarily required to conduct its operations without appropriations from the Federal Treasury.

6. **Salaried employee:** An employee who is paid on the basis of an annual salary rate and occupies a salaried position authorized by the Treasury Board or the Privy Council. These employees and positions may be of a continuing, term, seasonal, sessional, or part time nature. The positions are specified together with appropriate funds, in the Estimates of Canada and supplementary authorizing documents and are located in departmental branches, services and corporations subject to the regulation of the Treasury Board. Ships' officers are not classified as salaried owing to their special treatment under the Financial Administration Act.
7. **Prevailing rate employee:** A person employed in the Public Service of Canada whose remuneration is based on the rate of pay prevailing in the area where he is employed for the class of work he does. His rate of pay may also be based on rates prevailing in any area in Canada for work comparable to that which he does. The rates may be hourly, daily, weekly or monthly. These employees are governed by the Financial Administration Act - Prevailing Rate Employees General Regulations. They are occupants of positions authorized by the Treasury Board. The positions, together with appropriate funds, are listed in the Estimates of Canada and supplementary authorizing documents.
8. **Ships' officer:** A person employed in the Public Service for duty on a ship that is the property of or chartered by or on behalf of Her Majesty as a master, mate or marine engineer who is duly certified under the Canadian Shipping Act or in a position designated by the Treasury Board as that of a ship's officer. Excluded are members of the Armed Forces and the Royal Canadian Mounted Police. An annual rate of pay is determined by the Treasury Board after consultation with the Department of Labour. These employees are governed by the Financial Administration Act - Ships' Officer's Regulations. They are occupants of positions established by the Treasury Board, which positions, together with appropriate funds, are listed in the Estimates of Canada and supplementary authorizing documents.
9. **Ships' crew employee:** A person employed in the Public Service for duty on a ship that is the property of or chartered by or on behalf of Her Majesty as an unlicensed crew member. Excluded are members of the Armed Forces and Royal Canadian Mounted Police. These employees are paid on the basis of a monthly salary rate determined by the Treasury Board after consultation with the Department of Labour. They are governed by the Financial Administration Act - Ships' Crews Regulations. These employees are occupants of positions established by the Treasury Board, which positions, together with appropriate funds, are listed in the Estimates of Canada and supplementary authorizing documents.
10. **Casual and other employees:** All employees in Departments and Departmental corporations of the Government of Canada who are not defined as Salaried, Prevailing Rate, Ships' Officer or Ships' Crew employees.
11. **Locally-Engaged employees:** These are residents of foreign countries, employed by the Government of Canada to perform duties in the country in which they live. Their salary or wage is stated in the currency of the country where they are employed. Salaried locally-engaged employees occupy positions: (1) as Assistants; (2) in classes having the suffix U.K. i.e., Clerk 2(UK), Stenographer 1(UK), etc. While most are Salaried some are employed on a casual basis. The term "locally-engaged" excludes Canadian employees posted abroad.
12. **Regular earnings:** The basic pay of employees before deductions but excluding any special payments such as overtime, living allowances, etc. All regular earnings for the month, including those of persons off-strength at the end of the month are included in the tables where the title is used.
13. **Earnings:** As used in tables 1 & 2 this term means gross earnings before deductions including overtime, retroactive pay and other special payments in addition to regular earnings. In table 1, the earnings of employees of Departments and Departmental Corporations is limited to regular earnings plus overtime and retroactive pay.
14. **Hiring:** The initial appointment of a person to the reporting department whether as a new employee in the Government Service or by transfer from another department. Movements within a department are not considered as hirings. For purposes of hirings and separations only, the term "department" as used above is broadened to include departmental branches or services having a separately administered personnel office.
15. **Separations:** The termination of service of an employee in the reporting department by leaving the Government Service or by transfer to another department. Movements within a department are not considered as separations. For purposes of hirings and separations only, the term "department" as used above is broadened to include departmental branches or services having a separately administered personnel office.

16. Average employment: As used in the table on hirings and separations represents the mean monthly average number of employees in each "department" during the quarter.
17. Monthly average (as pertains to hirings and separations): represents the arithmetic mean i.e. one third of the actual hirings and separations for the quarter.
18. Monthly rate per 1000 employees (as pertains to hirings and separations): the rate is computed by the following formula:

$$\frac{\text{monthly average (number hired or separated)} \times 1000}{\text{average employment (during quarter)}}$$

FEDERAL GOVERNMENT EMPLOYMENT

MAY, 1961

NOTE

A complete description of the method of collection and the statistics included in this series was given, together with other background detail, in the report for April, 1961.

INTRODUCTION

This report includes some estimated figures for the Department of National Defence for which May data are only partially available. For detail, see tables in Part B.

Preliminary figures indicate that the total staff strength of the Government of Canada, including its corporations and agencies, increased by 6,609 to 341,149 in May 1961 over the previous month and by 205 over May 1960. Earnings for May 1961 amounted to \$125,490,000, up by \$6,339,000 over April 1961, and by \$8,429,000 over May 1960.

The staff strength was higher in May over April 1961 in four of the five groups of Federal organizations with Departmental Corporations being the only group to show lower employment. The most significant increases occurred in Proprietary Corporations, up by 3,120 and in Departmental Branches and Services, up by 3,466 employees.

FEDERAL GOVERNMENT EMPLOYMENT

May, 1961

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS

In order to avoid delay in the release of this report, estimated figures have been included for salaried staff of Defence Research and Development, and prevailing rate, ships' officers and crews and casual staff in the entire department of National Defence.

Preliminary figures for May 1961 indicate a total staff strength of 204,048, up by 3,199 employees over the previous month. Employment was higher for all of the four types of employees, the most significant of which were, salaried, up by 1,522 employees, and prevailing rate, up by 988 employees. This trend is similar to the corresponding months of 1960 where employment rose by 3,382 to a total of 198,388 in May 1960. Total earnings rose by \$990,000 to \$70,038,000 in May 1961 with all of the four types of employment indicating higher earnings.

The most important variations in staff strength over the previous month are: a) decrease of salaried employees, increase of prevailing rate and casual employees in the function "Defence Services", b) decrease of casual employees in function "Social Welfare - National Employment Services", c) increase of prevailing rate employees in function "Natural Resources and Primary Industries - Lands: Settlement and "Agriculture".

FEDERAL GOVERNMENT EMPLOYMENT

June, 1961

NOTE

A complete description of the method of collection and the statistics included in this series was given, together with other background detail, in the report for April, 1961.

INTRODUCTION

This report includes some estimated figures for the Department of National Defence for which June data are only partially available. For detail, see tables in Part B.

Preliminary figures indicate that the total staff strength of the Government of Canada, including its corporations and agencies, increased by 9,092 to 350,241 in June 1961 over the previous month, and by 3,155 over June 1960.

Earnings for June 1961 amounted to \$134,735,000, showing an increase of \$9,245,000 over the previous month, and \$16,131,000 over June 1960.

The staff strength was higher in three of the five groups of Federal organizations, with Agency Corporations and Departmental Corporations showing decreases. The most significant increase occurred in Proprietary Corporations, up by 5,168 and in Departmental Branches and Services, up by 4,787.

Total earnings for the first six months of 1961 amounted to \$739,797,000, up by \$53,058,000 over the corresponding period of 1960.

FEDERAL GOVERNMENT EMPLOYMENT

June, 1961

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES

The number of employees in Agency and Proprietary Corporations and Other Agencies for June 1961 increased by 5,038 over May 1961, and was lower by 3,900 in comparison with June 1960. Earnings for June 1961 were higher by \$7,773,000 over May 1961 and higher by \$8,736,000 over June 1960.

The bulk of the increase is attributed to the Canadian National Railways which reported staff increases in all provinces except Nova Scotia. Trans-Canada Air Lines also reported a substantial increase.

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS

In order to avoid delay in the release of this report, estimated figures have been included for salaried staff of Defence Research and Development, and, prevailing rate, ships' officers and crews and casual staff in the entire Department of National Defence.

Preliminary figures for June 1961 indicate a total staff strength of 208,102, an increase of 4,054 employees over the previous month. Employment was higher for all four types of employees, the most significant of which were salaried, up by 1,727 and prevailing rate up by 1,794. Total earnings in June 1961 increased by \$1,472,000 to \$71,510,000 over the previous month. Earnings were commensurate with the employee increase in all four types of employment.

The most significant variations in staff strength over the previous month are: a) increase in all types of employees in the function, "Defence Services"; b) increase in Salaried employees in function "General Government - Research, Planning and Statistics"; c) increase in prevailing rate employees in function "Recreational and Cultural Services - Parks, Beaches and other Recreational Areas".

FEDERAL GOVERNMENT EMPLOYMENT

July, 1961

NOTE

A complete description of the method of collection and the statistics included in this series was given, together with other background detail, in the report for April, 1961.

INTRODUCTION

This report includes some estimated figures for the Department of National Defence for which July data are only partially available. For detail, see tables in Part B.

Preliminary figures indicate that the total staff strength of the Government of Canada, including its corporations and agencies, was 356,050 in July 1961. This was 5,809 above the previous month, and 5,145 over the July 1960 count.

Earnings of these employees for July 1961 amounted to \$131,462,000; a decrease of \$3,273,000 from June 1961 but an increase of \$9,960,000 over July 1960.

The staff strength was higher in July than in June in all five groups of Federal organizations. The most significant increase occurred in Proprietary Corporations, up by 3,418 employees.

The Federal payroll rose 7.9 p. c. from \$808,241,000 in the first seven months of 1960 to \$871,913,000 in the January-June 1961 period. Most of this increase resulted from the employment of large numbers by the Government and its Agencies.

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES

The number of employees in Agency and Proprietary Corporations and Other Agencies for July 1961 increased by 4,114 over June 1961 but was 2,275 lower when compared with July 1960. Employee earnings for July 1961 decreased \$3,562,000 from the previous month but increased by \$3,827,000 over July 1960.

The rise in staff strength is attributed mainly to the Canadian National Railways, which recorded, a substantial increase in Quebec partially offset by a decrease in Ontario. The National Harbours Board increased its staff considerably.

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS

In order to avoid further delay in the release of this report, estimated figures have been included for salaried staff of Defence Research and Development, and, prevailing rate, ships' officers and crews, and casual staff in the entire Department of National Defence.

Preliminary figures for July 1961 indicate a total staff strength of 209,797, an increase of 1,695 employees over the previous month. Employment was higher for all four types of employees, the most significant of which were, salaried, up by 797 and casuals and others, up by 612 employees. Total earnings of staff employed in July amounted to \$71,799,000, an increase of \$291,000 over those employed in June.

The most significant variations in July staff strength when compared with June 1961 are:

a) a 268 person decrease in salaried employees in the function "General Government - Legislative" resulting from adjournment of Parliament on July 13th; b) increase of 528 in salaried employees in the function "General Government - Research, Planning and Statistics"; c) increase of 529 in casual and other employees in the function "Transportation and Communications - Waterways".

Notes and Definitions:

Department — For purposes of this table only, the term "department" is broadened to include departmental branches or services having a separately administered personnel office.

Hiring — The initial appointment of an individual to the reporting department.

Separation — Termination of service of an individual in the reporting department.

* Rates are omitted for departments with less than 100 employees as small changes in the number hired or separated result in abnormal changes in rates. Aggregates for these departments are given in "Total—Departments with less than 100 employees", as well as in "Total—All Departments".

-- Less than one.

Note: Because of rounding, detail may not add to totals.

FEDERAL GOVERNMENT EMPLOYMENT

August, 1961

NOTE

A complete description of the method of collection and the statistics included in this series was given, together with other background detail, in the report for April, 1961.

INTRODUCTION

This report includes some estimated figures for the Department of National Defence for which August, 1961 data are only partially available. For detail, see tables in Part B.

The total staff strength of the Government of Canada, including its corporations and agencies, numbered 354,870 for August, 1961. This represents a decrease, from July, 1961, of 1,180 employees which is accounted for mainly by a drop of 730 employees in Departmental Branches and Services and one of 285 in Proprietary Corporations. Comparable totals for the same months of 1960 indicate a similar but milder trend where employment decreased by 578 to 350,327 in August, 1960 from 350,905 in July, 1960.

Analysis of the 4,543 employees increase from August, 1960 to August, 1961 indicates a substantial rise in staff in Departmental Branches and Services, up by 6,952 but offset to some extent by a drop of 3,026 employees in Proprietary Corporations. Other changes were: Departmental Corporations, up by 556; Other Agencies, up by 103, and; Agency Corporations, down by 42.

Total staff earnings amounted to \$130,366,000 for August, 1961, down by \$1,137,000 from July, 1961 but up by \$5,060,000 over August, 1960. Earnings for the first eight months of 1961 exceeded the billion dollar mark at \$1,002,321,000, up by 68,774,000 as compared with the same period of 1960.

August, 1961

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES

The Agency and Proprietary Corporations and Other Agencies had a roll of 145,914 employees in August, 1961. This was a decrease of 339 employees from 146,253 in July, 1961 and of 2,965 from 148,879 employees in August, 1960. The decline from July, 1961 was mostly due to Trans-Canada Air Lines reduction of staff, especially in the provinces of Quebec and Manitoba and to a lesser extent in Ontario. The Canadian National Railways recorded a substantial decrease in Quebec offset by a good increase in Ontario which resulted in a small overall rise in staff numbers.

Employee earnings amounted to \$58,696,000 in August, 1961, down by \$1,009,000 from \$59,705,000 in July, 1961. The July payroll included approximately one million dollars retroactive pay reported by the Canadian National Railways. The August report of that Company included a very small amount of retroactive pay and total payroll consequently decreased. Cumulative earnings for the first eight months of 1961 amounted to \$439,516,000, up by \$11,577,000 over the corresponding period of 1960.

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS

In order to avoid further delay in the release of this report, estimated figures have been included for salaried staff of Defence Research and Development, and, prevailing rate, ships' officers and crews, and casual staff in the entire Department of National Defence.

The Royal Commission on Health Services is included in this report for the first time. Six employees were reported. This Commission is included in the function tables (6 and 7) under "Health - General" and in the administrative analysis (tables 8 and 9) under "Privy Council - Special".

The staff strength of departmental branches, services and corporations numbered 208,956 in August, 1961, down by 841 from the 209,797 in July, 1961 but higher by 7,508 than in August, 1960. Staff earnings amounted to \$71,670,000 in August, 1961, down by \$129,000 from July, 1961 but higher by \$3,327,000 than in August, 1960.

Analysis of employment for August, 1961 as compared with July, 1961 reveals an estimated decrease of 1,900 employees (including almost 1,500 prevailing rate staff, in the function "Defence Services" most of which represents a drop in Summer Training of Militia and Cadets, especially for Army and Air Services. Casual employees increased in the functions "National Resources and Primary Industries - Land: Settlement and Agriculture", and, "Other"; in "Recreational and Cultural Services - Parks, Beaches and Other Recreational Areas"; and in "Transportation and Communications - Waterways". Salaried employees increased in the function "General Government - Research, Planning and Statistics", resulting from additions to the Dominion Bureau of Statistics in connection with the 1961 Census. Review by type of employees indicates a decrease of 1,671 prevailing rate and an increase of 546 casual employees. Staff numbers were considerably lower in Ontario, Quebec and Alberta and higher in British Columbia and the Yukon and Northwest Territories.

FEDERAL GOVERNMENT EMPLOYMENT

September, 1961

NOTE

A complete description of the method of collection and the statistics included in this series was given, together with other background detail, in the report for April, 1961.

INTRODUCTION

This report includes some estimated figures for the Department of National Defence for which September, 1961 data are only partially available. For detail, see tables in Part B.

Employees of the Government of Canada, including its corporations and agencies, numbered 349,138 at the end of September, 1961. This represents a decline from August, 1961 of 5,732 employees resulting mainly from reductions of 3,135 in departmental branches, services and of 2,109 in proprietary corporations; the other three groups of employees decreased less substantially. The decline in staff from August to September is mainly attributable to a seasonal reduction in certain activities following the peak months of July and August. The September, 1961 total was up 1.4 p.c. from the 344,362 employed in September, 1960. This year-to-year increase resulted from the employment of approximately 7,000 more persons by departments which more than offset a decrease of almost 2,700 in staff of proprietary corporations. Departmental corporations employed some 400 more staff than a year ago.

Total staff earnings for the month of September, 1961 amounted to \$127,160,000, down 2.5 p.c. or \$3,206,000 from August, 1961 but up 4.5 p.c. or \$5,449,000 from September, 1960. Earnings for the first nine months of 1961 amounted to \$1,129,481,000, up 7.0 p.c. or \$74,223,000 from the corresponding 1960 month.

September, 1961

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES

The Agency and Proprietary Corporations and Other Agencies had a roll of 143,568 employees in September, 1961. There were thus 2,346 fewer employees than in August, 1961 and 2,632 fewer when compared with September, 1960.

The decline from August, 1961 was due in most part to a general reduction of staff by the Canadian National Railways System especially in Ontario, Quebec and the United States. Also contributory to this decline, though, to a minor extent were staff reductions by Atomic Energy of Canada Limited, Northern Transportation Company Limited, and Trans-Canada Air Lines.

Total staff earnings for the month under review amounted to \$56,131,000 down by \$2,565,000 or 4.4 p.c. from August, 1961 mainly due, of course, to the Canadian National Railways substantial staff reduction. On the other hand the Canadian Broadcasting Corporation reported retroactive payments in excess of \$100,000. Earnings went up by \$1,970,000 from September, 1960.

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS

In order to avoid further delay in the release of this report, estimated figures have been included for salaried staff of Defence Research and Development, and, prevailing rate, ships' officers and crews, and casual staff in the entire Department of National Defence.

Employees of Departmental branches, services and corporations numbered 205,570 in September, 1961, down 1.6 p.c. or 3,386 from August, 1961 but 3.7 p.c. or 7,408 higher than in September, 1960. Total employee earnings for September, 1961 amounted to \$71,029,000, down by 0.9 p.c. or \$641,000 from August, 1961 but 5.1 p.c. or \$3,478,000 higher than in September, 1960.

The reduction of staff from August, 1961 to September, 1961 is generally attributed to reduced seasonal activities. Analysis of the data indicates a substantial decline of employees in the function "Defence Services", most of which result from a drop in summer employment and summer training of militia and cadets in National Defence; a decrease in the function "General Government - Executive and Administrative", mostly seasonal in nature; a drop in the function "General Government - Research, Planning and Statistics" resulting from a reduction in Dominion Bureau of Statistics Census employees; a seasonal drop in the function "Recreational and Cultural Services - Parks, Beaches and Other Recreational Areas"; and a decrease in the general function "Natural Resources and Primary Industries" involving seasonal reduction offset partly by the employment of short term employees in the Prairie provinces.

The decline from August is reflected in the four types of employees, especially salaried employees which dropped by 1,590, prevailing rate by 977 and casuals by 799. There were fewer employees in every province except Newfoundland. The drop was most significant in Ontario where staff was down by 1,340 to 87,419. Staff employed outside Canada increased slightly.

FEDERAL GOVERNMENT EMPLOYMENT

October, 1961

NOTE

A complete description of the method of collection and the statistics included in this series was given, together with other background detail, in the report for April, 1961.

INTRODUCTION

This report includes some estimated figures for the Department of National Defense for which October, 1961 data are only partially available. For detail, see tables in Part B.

Employees of the Government of Canada, including its corporations and agencies, numbered 344,465 at the end of October, 1961. This represents a decline from September, 1961 of 4,673 employees resulting mainly from reductions of 3,037 in proprietary corporations and of 1,989 in departmental branches, services and corporations. The October, 1961 total was up 1.2 p.c. from the 340,477 employed in the same month a year ago.

Total staff earnings for the month of October, 1961 amounted to \$127,137,000, down by \$23,000 from September, 1961 but up 5.4 p.c. or \$6,530,000 from October, 1960. Earnings for the first ten months of 1961 amounted to \$1,255,356,000, up 6.8 p.c. or \$79,491,000 from the corresponding 1960 period.

October, 1961

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES

The Agency and Proprietary Corporations and Other Agencies had a staff strength of 140,501 at the end of October, 1961. There were, thus, 3,067 fewer employees than the previous month and 2,603 fewer when compared with October, 1960.

The decline was due almost exclusively to a reduction of staff by the Canadian National Railways in most provinces especially in Ontario, Quebec and Alberta. Total staff earnings for the month under review amounted to \$56,384,000, up by \$253,000 from September, 1961 mainly due to some \$400,000 in retroactive payments reported by the Canadian National Railways. Earnings went up by \$2,758,000 from October, 1960.

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS

In order to avoid further delay in the release of this report, estimated figures have been included for salaried staff of Defense Research and Development, and, prevailing rate, ships' officers and crews, and casual staff in the entire Department of National Defence.

Employees in Departmental Branches, Services and Corporations totalled 203,964 in October, 1961. This represented a decline of 0.8 p.c. or 1,605 from September, 1961 but was 3.3 p.c. or 6,591 higher than in October, 1960. Total employee earnings for the month of October, 1961 amounted to \$70,753,000, down 0.4 p.c. or \$276,000 from September, 1961 but 5.6 p.c. or \$3,772,000 higher than in October, 1960.

The reduction of staff from September, 1961 to October, 1961 can be mostly attributed to a continued decrease in seasonal activities. Analysis of the data indicates a substantial staff decline, mostly seasonal in nature, in the function "Defence Services"; a decrease in the function "General Government-Research, Planning and Statistics" resulting from fewer Dominion Bureau of Statistics Census employees; seasonal increases in the functions "Social Welfare - National Employment Services" and "Recreational and Cultural Services - Parks, Beaches and other Recreational Areas"; an increase in "Education - Indian and Eskimo Schools and Schools in N.W.T." mainly resulting from the reemployment of maintenance and other employees for the school year; and, a seasonal decrease in the group of functions "Natural Resources and Primary Industries".

The staff decline from September 1961 was reflected in prevailing rate, lower by 801 and casual employees lower by 979. Salaried employees and ships' officers and crews recorded slight increases in numbers. Employment declined in all provinces except Nova Scotia and Quebec. Staff employed outside Canada remained approximately the same.

Notes and Definitions:

Department — For purposes of this table only, the term "department" is broadened to include departmental branches or services having a separately administered personnel office.

Hiring — The initial appointment of an individual to the reporting department.

Separation — Termination of service of an individual in the reporting department.

* Rates are omitted for departments with less than 100 employees as small changes in the number hired or separated result in abnormal changes in rates. Aggregates for these departments are given in "Total—Departments with less than 100 employees", as well as in "Total—All Departments".

Figures may not add due to rounding.

-- Less than one.

Note: Because of rounding, detail may not add to totals.

FEDERAL GOVERNMENT EMPLOYMENT

NOVEMBER, 1961

NOTE

A complete description of the method of collection and the statistics included in this series was given, together with other background detail, in the report for April, 1961.

INTRODUCTION

This report includes some estimated figures for the Department of National Defence for which November 1961 data are only partially available. For detail, see tables in Part B.

The Government of Canada, including its corporations and agencies, had a staff strength of 342,322 at the end of November 1961. There were, thus, 2,143 fewer employees than October 1961 with all of the five main groups except departmental corporations recording a decrease. The November 1961 total was up 0.8 p.c. or 2,757 from the 339,565 employed in the same month a year ago.

Total staff earning for November 1961 amounted to \$125,025,000, down by 1.7 p.c. or \$2,112,000 from October 1961, but up by 4.3 p.c. or \$5,199,000 from November 1960.

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES

The Agency and Proprietary Corporations and Other Agencies employees numbered 138,609 at the end of November 1961. This represents a decline of 1.3 p.c. or 1,892 from the previous month and a decline of 0.7 p.c. or 982 from November 1960.

The decline was due mostly to a staff reduction by the Canadian National Railways which reported some 1,500 fewer employees, and a reduction of over \$2,000,000 in earnings. The railway reduced staff in most provinces, especially in Ontario. Earnings of employees decreased by \$1,983,000 from the previous month but increased by \$2,435,000 from November 1960.

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS

In order to avoid further delay in the release of this report, estimated figures have been included for salaried staff of Defence Research and Development, and, prevailing rate, ships' officers and crews, and casual staff in the entire Department of National Defence. The Pacific Region Air Services is included for the first time with some 120 prevailing rate and casual employees earning over \$40,000 for the month; salaried employees were already included.

Employees in Departmental Branches, Services and Corporations totalled 203,713 at the end of November 1961. This represents a slight decline of 251 from October 1961 but was up by 1.9 p.c. or 3,739 from November 1960. Total employee earnings for the month under review amounted to \$70,624,000, down \$129,000 from October 1961, but 4.1 p.c. or \$2,764,000 higher than November 1960.

The slight decline in staff from October 1961 was reflected in a drop of 427 salaried employees, and of 17 ships' officers and crews, partially offset by increases of 4 in prevailing rate and, 189 in casual employees. Employment declined in Newfoundland, the Prairie provinces and the Yukon and Northwest Territories, but increased in the Maritime and Central provinces, British Columbia and those employed outside Canada.

Analysis of the November 1961 data with the previous month by function indicates a substantial decline in the function "General Government - Research, Planning and Statistics" resulting from decreasing Census staff of the Dominion Bureau of Statistics; a decrease in the function "Transportation and Communications - Waterways", seasonal in nature; a substantial increase in the function "Social Welfare - National Employment Services"; caused by the seasonal rise in unemployment which requires a larger staff to handle claims and job applications; and a seasonal decrease in the group of functions "Natural Resources and Primary Industries".

FEDERAL GOVERNMENT EMPLOYMENT

DECEMBER, 1961

NOTE

A complete description of the method of collection and the statistics included in this series was given, together with other background detail, in the report for April, 1961.

INTRODUCTION

This report includes some estimated figures for the Department of National Defence for which November and December, 1961 data are incomplete. For details, see tables in Part B.

Employees of the Government of Canada, including its corporations and agencies, numbered 337,456 at the end of December, 1961. This represents a decline from November of 4,866 employees, resulting mainly from a reduction of 3,839 in proprietary corporations, and of 1,027 in departmental branches, services and corporations. The December, 1961 total was up 978 from the 336,478 employed in the same month a year ago.

Total staff earnings for the month under review amounted to \$124,291,000; down by \$734,000 from November, 1961, but up by \$3,409,000 from December, 1960.

Earnings for the period January 1 to December 31, 1961 amounted to \$1,504,596,000, an increase of \$88,023,000 or 6.2% over the corresponding 1960 period.

December, 1961

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES

These government organizations employed 3,839 fewer staff than in November, 1961, and 1,214 less than in December, 1960. This represented reductions of 2.8 p.c. from November, 1961 and 0.9 p.c. from December, 1960.

The decline in employment was mainly the result of decreases reported by the Canadian National Railways.

Total staff earnings for the month under review amounted to \$53,428,000, down by \$973,000 (1.8%) from November, but up by \$1,846,000 (3.6%) over December, 1960.

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS

In order to avoid further delay in the release of this report, estimated figures have been included for salaried staff of Defence Research and Development, and, prevailing rate, ships' officers and crews, and casual staff in the entire Department of National Defence.

Employees in Departmental Branches, Services and Corporations totalled 202,686 in December, 1961. This represents a decline of 1,027, or 0.5% from November, but an increase of 2,192 or 1.1% over December of the preceding year. Total employee earnings for December, 1961 amounted to \$70,864,000, an increase of \$240,000 or 0.3% over the previous month and was up \$1,565,000 or 2.3% over December, 1960.

The December reduction in staff from November, 1961 can be mostly attributed to a decrease in seasonal activities, with a corresponding decrease in casual, ships' officers and crews and prevailing rate employees. Analysis of the data indicates a decrease in the functions "General Government - Research, Planning and Statistics", resulting from a gradual release of 1961 Census staff by the Dominion Bureau of Statistics; a seasonal decline of prevailing rate, ships employees and casual staff in the group of functions "National Resources and Primary Industries", and "Transportation", notably waterways.

The functions "Defence Services" and "Social Welfare - National Employment Services", show a fairly substantial increase in casual employment.
